Abbreviations

The following are commonly used abbreviations in PBS Phase I Environmental Site Assessment reports. Abbreviations are defined upon first use within the text.

AAI	all appropriate inquiry
ACBM	asbestos-containing building material
ACM	asbestos-containing material
AST	aboveground storage tank
ASTM	ASTM International (formerly American Society for Testing and Materials)
AUL	activity and use limitation
bgs	below ground surface (depth below the ground surface)
CEG	conditionally exempt generator (of hazardous waste)
CERCLA	Comprehensive Environmental Response, Compensation, and Liability Act (EPA)
CREC	controlled recognized environmental condition
Ecology	Washington State Department of Ecology
EDR	Environmental Data Resources (a regulatory database report provider)
EPA	Environmental Protection Agency
ESA	environmental site assessment
HOT	heating oil tank
HREC	historical recognized environmental condition
LCP	lead-containing paint
LQG	large-quantity generator (of hazardous waste)
LUST	leaking underground storage tank
mg/kg	milligrams per kilogram (equivalent to ppm)
MTCA	Model Toxics Control Act (Washington State)
NFA	No Further Action determination (Ecology)
NLR	no longer reporting
NonGen	non-generator of hazardous waste
PBS	PBS Engineering and Environmental Inc.
PCB	polychlorinated biphenyls
ppm	parts per million (equivalent to mg/kg)
RCRA	Resource Conservation and Recovery Act (EPA)
REC	recognized environmental condition
SQG	small-quantity generator (of hazardous waste)
USGS	United States Geological Survey
UST	underground storage tank

Executive Summary

A Phase I Environmental Site Assessment was conducted by PBS Engineering and Environmental Inc. (PBS) for the property (Site or subject property) located at Main and Durgan Streets in Washougal, Washington. The assessment was conducted for Fort Vancouver Regional Libraries (Client or User). This assessment was performed in general compliance with the ASTM International E1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process, approved by the EPA in November 2013, for conducting all appropriate inquiries (AAI).

This report should be read in its entirety (text and attachments) before decisions are made based on the findings provided in the Executive Summary. PBS is not responsible for utilization of less than the complete report.

Site Description and History

The Site is a four-tax lot parcel, approximately 0.40 acres in total area, currently in use as a parking lot.

Historically, the Site was in use in the northeast portion as an auto wash and battery charging business by 1929, by a grain warehouse in the south portion, and in use by residential structures by the 1940s on the west side of the Site. These structures and the older buildings were demolished by 1970 and the parcel has been in use as a parking lot since that time. No evidence of historical use of underground heating oil tanks was identified during this study.

The property to the northeast was in use as an auto repair garage in the 1920s through approximately the early 1970s. This property is now occupied by the City of Washougal offices.

A Chevron gas station occupied a property to the southeast (1703 B Street) from at least the 1920s through the late 1990s. This area is now occupied by a paved park (Reflection Plaza).

A gas station has been operating on a property to the west (212 Washougal River Road) since the late 1960s.

Regulatory Review

Environmental Protection Agency (EPA) and state environmental databases were reviewed to identify sites that pose a potential environmental concern to the subject property. The subject property does not appear on any database. Based on a review of the listed sites, none appear to pose a significant environmental concern to the subject property.

Findings and Opinions

This Phase I ESA identified the following:

1. The subject property was occupied by an auto wash business and a battery charging business in the late 1920s and early 1930s. The structures remained on the Site through the 1960s. It is unknown if auto repair activities also occurred on the property. This represents an unknown environmental concern.
2. Residential structures were located on the west side of the subject property from approximately the 1930s through the 1960s. There is the potential for undocumented, underground heating oil tanks at the Site. Any future redevelopment plans should consider the possibility of encountering such tanks which are required to be properly decommissioned consistent with Washington Department of Ecology requirements.

3. Surrounding properties to the north, southeast and west were once utilized by auto repair garages or gas stations, with a gas station remaining to the southwest. This represents a high environmental condition.

Recognized Environmental Conditions (RECs), Including Controlled RECs (CRECs)

This assessment has revealed no evidence of RECs in connection with the property.

Data Gaps

No data gaps were identified during this study.

Additional Investigation

Additional investigation is warranted to address historical use of the northeast corner of the property as an auto wash and battery charging business and to evaluate the potential for migration of potential contaminants by soil vapor from historical automotive related businesses to the north and south of the property.

1 PROJECT AND REPORT INFORMATION

1.1 PBS Client Information

PBS Engineering and Environmental Inc. (PBS) conducted this assessment for Fort Vancouver Regional Libraries (Client). The Client is considered the User, as defined by ASTM International Standard E1527-13.

This Phase I Environmental Site Assessment has been requested by Fort Vancouver Regional Libraries to qualify for the innocent landowner defense to CERCLA liability prior to the donation of the Site for future library development. This assessment was performed in general compliance with ASTM International's E1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process, approved by the EPA in November 2013, for conducting all appropriate inquiries (AAI).

1.2 Report Purpose

A Phase I Environmental Site Assessment (ESA) was conducted by PBS for the property located at Main and Durgan Streets in Washougal, Washington (Site or subject property). The purpose of the Phase I ESA was to identify recognized environmental conditions associated with the subject property, and to assess the likelihood that contamination from hazardous substances or petroleum products may exist on the Site either from past or present use of the subject property or nearby properties. This study is intended to reduce, not eliminate, uncertainty regarding the potential for recognized environmental conditions in connection with the subject property, within reasonable limits of time and cost.

The purpose of this study is to conduct an all appropriate inquiry into the current and previous ownership and uses of the subject property consistent with good commercial or customary practice. In so doing, the Client may qualify for one of three Landowner Liability Protections (LLP) that limit Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) liability. The Client must fulfill associated continuing obligations in order to maintain LLP status.

1.3 Scope of Work

The assessment was performed in general compliance with the ASTM International (ASTM) E1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process, approved by the Environmental Protection Agency (EPA) in November 2013. Unless noted in section 1.6 Special Terms and Conditions, the scope of work for the project included the following:

1. Identifying and visually surveying the subject property for the presence of hazardous substances and petroleum products.
2. Obtaining information from the Client through a completed disclosure questionnaire and a review of a title report, if provided by the Client.
3. Reviewing federal, state, tribal, and local agency listings using a commercial database search provider, including activity and use limitations.
4. Reviewing historical maps, historical occupant records, and the nature of past property usage.
5. Reviewing readily available soils, geology, or environmental reports for the subject property or subject property vicinity.
6. Interviewing persons knowledgeable about the subject property, including current and previous owners.
7. Preparing the report summarizing any observations, sources used, findings, conclusions, and opinions relating to the presence or likely presence of hazardous substances or petroleum products on the

subject property, including the potential for contaminants migrating to the subject property from an off-site location.

This assessment considers business environmental risks (see section 11.2 Glossary) that are not recognized environmental conditions unless the Client specifically requests otherwise. Please refer to the PBS Proposal to Provide a Phase I Environmental Site Assessment/Contract, Appendix A, for a detailed description of our scope of work.

PBS has prepared this report using information that is reasonably ascertainable; that is, information that is practically reviewable, publicly available, and obtainable from its source within reasonable time and cost constraints.

1.4 Conformance with ASTM E1527-13

This report has been formatted to maximize reader usability and comprehension. This report conforms to the requirements of ASTM E1527-13, and items indicated in Appendix X4 of the standard are included. Section 11 provides a cross-reference table that allows the reader to confirm conformance.

1.5 Non-ASTM Method Scope of Work

Non-ASTM method issues such as asbestos, lead-containing paint, wetlands, indoor air quality were not addressed during this study. The Client did not request non-ASTM scope items be addressed.

1.6 Special Terms and Conditions

The standard PBS Terms and Conditions are included in the PBS Proposal to Provide a Phase I Environmental Site Assessment/Contract in Appendix A; there are no special terms and conditions.

1.7 Client-Imposed Limitations

The Client did not impose limitations on PBS while completing this report.

2 PROPERTY INFORMATION AND PHYSICAL SETTING

2.1 Site Description

Site Address:	Main and Durgan Streets, Washougal, Washington
Tax Lot:	Clark County Assessor ID 7366000, 73661000, 73670000, 73675000
Township, Range, Section:	Township 1 North, Range 4 East, SE ¼ of Section 7, Willamette Base and Meridian
Size:	Approximately 0.40 acres
Current Use:	Parking lot

Tax lot information was obtained from Clark County online maps resource¹ on November 13, 2019.

A Site Vicinity Map and Site Plan are included with this report under Figures. A copy of the county assessor's tax map is included in Appendix B.

2.2 Owner and Occupant(s)

Current Owner:	Lone Wolf Development LLC
Previous Owner:	Green Arbor Development
Property Manager:	Current owner
Current Occupant(s):	N/A

2.3 Topography and Surface Features

The US Geological Survey 7.5-minute topographic map (USGS Washougal, Washington Quadrangle, 1994; see Figure 1) for the Site indicates that the area is generally flat with a gentle slope to the south-southwest, toward the Columbia River. The subject property elevation is approximately 50 feet above mean sea level.

The topographic map indicated that the nearest surface water the Columbia River is located approximately less than a 0.25 mile south from the subject property. The Washougal River is located approximately half a mile north from the subject property.

2.4 Groundwater Well/Borehole Records

The Washington State Department of Ecology's (Ecology) well log database² provides logs for water wells, monitoring wells, and geotechnical borings along with decommissioned well reports and other records. This database was reviewed by PBS on November 14, 2019. No well identification numbers are noted on two monitoring well reports associated with a Pendleton Woolen Mills site. Records for one of the wells indicate that groundwater was first encountered at 31 feet below ground surface (bgs). Static water was recorded at 24 and 32 feet bgs. Copies of the reviewed logs are included in Appendix B.

Based on topography, the direction of shallow unconfined groundwater flow is expected to be toward the south-southwest; therefore, properties to the north-northeast are considered upgradient to the subject property.

² <https://fortress.wa.gov/ecy/wellconstruction/map/>

3 GOVERNMENTAL AND REGULATORY RECORDS REVIEW

3.1 Government Record Sources

Washington State Department of Ecology (Ecology) Online Facility Profiler

Ecology maintains an online database³ of state cleanup and federal Superfund sites, hazardous waste generators, underground storage tanks (USTs), solid waste facilities, and other environmental concerns. This website was reviewed by PBS on November 14, 2019. The subject property was not listed. No adjoining or nearby properties were listed other than those identified by the environmental database search (see section 3.2).

Local Fire Department

PBS requested information from the Camas-Washougal Fire Department on November 26, 2019, utilizing their request for information form on the City's website (<https://www.cityofwashougal.us/formcenter/Contact-Us-5/Contact-Us-47>). A response was received via email. No records for the property were available from this source.

Underground Injection Controls (UICs)

Ecology maintains an online database for registered underground injection controls (UICs).⁴ This database was reviewed by PBS on November 13, 2019. No records of UICs were on file for the subject property or adjacent properties.

Other Government Records

No other local government records were reviewed for this assessment.

3.2 Standard Environmental Record Sources

A search of EPA, state, and tribal environmental database listings was performed by a commercial database search provider (a copy of the database search report is included in Appendix C). The purpose of this search was to identify potential, suspected, or known sources of contamination on or in the area of the subject property. Various agency listings were searched for different approximate minimum search distances from the subject property as established in the ASTM method. Listings included publicly available databases of environmental liens, activity and use limitations, and easements and equitable servitudes, if recorded or filed.

If the Site and/or adjacent properties are identified in the regulatory database report, the information is summarized below. Regulatory data for surrounding properties that may pose a potential risk to the subject property are also included. Other properties listed in the database report are not considered to be of environmental concern to the Site based on presumed groundwater flow direction, distance from the subject property, regulatory status (for example, the agency file is closed), or other physical factors.

The commercial database report may also include proprietary data derived from historical city directories. These can include historical dry cleaners/laundries and automobile stations (gas stations, automobile repair shops, auto body shops). These are non-regulatory listings and are included as historical information.

Subject Property

The subject property does not appear on the regulatory database report.

⁴ <https://fortress.wa.gov/ecy/uicsearch/>

Adjoining Properties

Address:	Bank 1625 Main Street Washougal, Washington	WA Asbestos #:	S119165588
Located East (cross gradient) of subject property			
This record is related to abatement of asbestos containing building materials in a bank structure and is not a concern for the subject property.			

Address:	WA City Washougal 1615 C Street Washougal, Washington	WA AllSites #: WA UIC	99465
Located north (upgradient) 77 feet of subject property			
The City of Washougal has an active UIC file for a 5H1-Stormwater well. The well was installed in January 2000 and is 12 feet deep. The file states that the registration type automatically meets the non-endangerment standard. Given the use for stormwater management, this is not a concern for the subject property.			

Surrounding Properties

Address:	Washougal City Public Works 1701 C Street Washougal, Washington	WA AllSites #:	23732
Located 212 feet northeast (upgradient) of subject property			
This listing is for a water quality permit for an UIC at this site. Although the site is upgradient of the subject property, given the likely use for stormwater management, this site is not a concern for the subject property			

Address:	Collins Texaco / KT Kanso AM/PM/ARCO 6008 1703 B Street/212 Washougal River Road/212 15 th Street Washougal, Washington (summarizing from multiple database listings)	WA Lust #: WA UST WA AllSites WA CSCSL NFA RCRA NonGen/NRL Finds Echo WA Manifest	54112683, 46212644 Cleanup Site #9311
Located 147 feet west-southwest (downgradient) of subject property			
The UST listing for the site indicates that four steel fuel tanks were installed in 1964 and were removed in 1996. Four fiberglass gasoline tanks with capacities of 10,000 gallons are listed as being currently operational at the site.			
Ecology received report in September 1991 of soil contaminated by petroleum products. The release was from a tank in the southwestern portion of the property. In May of 1994 the final cleanup report for the property was received.			

The site has a multiple LUST IDs associated with the property with cleanup site ID 9311 and LUST ID 182. The site has a LUST ID#: 182 with a release date of January 1990. The contaminant is reported as soil impacted by gasoline, diesel, petroleum constituents and lead. The levels of contamination were indicated to be below cleanup levels and the site received an NFA. The property has a second LUST ID#: 6522 with a release date of October 2007. Site assessment activities conducted at the site identified soil and groundwater contamination at the site and remedial excavation and soil vapor extraction activities were conducted at the site. Groundwater was encountered at depths of 32 to 25 feet below ground surface. This Site received an NFA 2014.

The site has listings as a conditionally exempt, small, and/or large quantity generator since the 1990s.

Address:	Out to Dry 1520 Main Street Washougal, Washington	EDR Historic Cleaner #:	1018445120
----------	---------------------------------------------------------	-------------------------------	------------

Located 199 feet southwest (downgradient) of subject property

The site was used as a historic cleaner for laundry and dry cleaner agents in 2008 and 2009.

Address:	Arco 6008 212 15 th Street/Washougal River Road Washougal, Washington		Facility #46212644 LUST #6522, 182 Cleanup Site #9311
----------	----------------------------------------------------------------------------------------	--	---------------------------------------------------------------------

Located 298 feet northwest (cross-gradient) of subject property

Unmappable Sites

The unmappable/orphan sites were reviewed on November 15, 2019. Based on the presumed location or reported regulatory status, all other unmappable sites listed on the EDR database report are considered to pose *de minimis* concern.⁵

⁵ Unmappable sites are identified as “Non-Geocoded” or “Orphan” in the regulatory database report. They are categorized this way because inaccurate or incomplete site addresses prevented mapping by the database provider. PBS has reviewed and, in some cases, located these unmappable sites. Environmental risk associated with remaining unmappable sites could not be determined.

4 HISTORICAL RECORDS REVIEW

4.1 Standard Historical Sources

ASTM E1527-13 indicates that review of standard historical sources at less than approximately five-year intervals is not required by this practice. If the specific use of the property appears unchanged over a period longer than five years, then it is not required by this practice to research the use during that period.

The following standard sources were reviewed:

- Aerial photographs were obtained from University of Oregon Map Library, EDR aerial photograph collection, and Google Earth.
- Building department records for adjacent bank property were given via phone on November 26, 2019.
- Sanborn fire insurance maps were obtained from EDR's Sanborn Collection
- Title Records dated May 2018 were obtained from Chicago Title Insurance Company on November 5, 2019 (provided by Client).

The table below summarizes the information gathered from the sources listed above. Data obtained from other sources reviewed for this Phase I ESA may also be included in the following tables in order to identify potential historical data failures.

Copies of the reviewed records are included in Appendix D.

Year	Source	Description
1914	Sanborn map	<p><u>Subject Property:</u> The subject property is generally undeveloped with just one small structure on the north boundary.</p> <p><u>Adjoining Properties:</u> The property to the north is in use as lodging and stables. The property east of the subject property occupied by several residences and outbuildings including a greenhouse. The property to the south is in use as a plumbing and tin shop as well as a blacksmith shop. The property to the west is occupied by residences.</p>
1922	Sanborn map	<p><u>Subject Property:</u> The subject property is unchanged.</p> <p><u>Adjoining Properties:</u> The property to the north is occupied by a vacant structure and two residential auto garages. Further to the northeast across the intersection of C Street and 17th is an automotive repair business. The greenhouse to the east has been removed and some modifications have been made to residences. A clothing cleaning and tailoring operation is noted on the east adjacent property along the west side of Main (17th). The property to the south is occupied by an automotive garage and repair business and the plumbing and tin shop. A gasoline underground storage tank was noted to be present beneath B Street immediately north of the automotive repair business. The blacksmith has been removed. The property to the west is generally unchanged.</p>

Year	Source	Description
1929	Sanborn map	<p><u>Subject Property:</u> The subject property has two small structures and an outbuilding in the northeast corner. The structures are occupied by a battery charging business and auto wash. In the southwest corner of the subject property is a grain warehouse.</p> <p><u>Adjoining Properties:</u> The property to the north has residences and an fueling service station. The service station to the northeast at the northeast corner of C Street and 17th is noted to have a gasoline underground storage tank located beneath C Street immediately south of the business. The cleaner and tailor is no longer present on the eastern adjoining property. A fueling station is present further to the east on the northeast corner of B Street and 17th. The property to the south appears generally unchanged. The property to the west remains in residential use.</p>
1936	Aerial photograph	<p><u>Subject Property:</u> The subject property is occupied by two structures in the northeast and southwest corners of the property.</p> <p><u>Adjoining Properties:</u> Structures and uses on the site have not changed significantly. The blocks to the east and south are occupied by commercial structures. A fueling station is still present on the northeast corner of the intersection of B Street and 17th.</p>
1948	Aerial photograph	<p><u>Subject Property:</u> There are no changes to the subject property.</p> <p><u>Adjoining Properties:</u> There are no apparent changes to the adjoining properties.</p>
1955	Aerial photograph	<p><u>Subject Property:</u> There are no changes to the subject property that are apparent.</p> <p><u>Adjoining Properties:</u> There are no changes to the adjoining properties.</p>
1964	Aerial photograph	<p><u>Subject Property:</u> A residence has been added to the northwest corner of the site. The previously noted structures are still present.</p> <p><u>Adjoining Properties:</u> There are no changes to the adjoining properties that are apparent.</p>
1973	Aerial photograph	<p><u>Subject Property:</u> The buildings on the northwest and southwest corners have been removed.</p> <p><u>Adjoining Properties:</u> The property to the east is partially vacant (south portion). A fueling station is present further to the west at the northeast corner of the intersection of B Street and 15th. There are no other changes to the other adjoining properties.</p>
1980	Aerial photograph	<p><u>Subject Property:</u> The subject property is now a parking lot and all structures have been removed.</p> <p><u>Adjoining Properties:</u> The property to the east is now occupied by a large structure in the southeast portion and a smaller structure in the northeast portion; parking lots can be seen in between the buildings. The property to the south has a large structure present with parking areas. A new commercial structure is now present to the northeast of the subject property. The properties to the west remain in residential use.</p>

Year	Source	Description
1990	Aerial photograph	<u>Subject Property</u> : There are no changes to the subject property. <u>Adjoining Properties</u> : There are no significant changes to the adjoining properties that are apparent.
1998	Aerial photograph	<u>Subject Property</u> : There are no changes to the subject property. <u>Adjoining Properties</u> : There are no significant changes to the adjoining properties that are apparent.
2005	Aerial photograph	<u>Subject Property</u> : There are no changes to the subject property. <u>Adjoining Properties</u> : there are no apparent changes to the blocks to the north or south. A residential structure has been removed on the block to the west. The gas station can no longer be seen on the block to the east.
2012	Aerial photograph	<u>Subject Property</u> : There are no changes to the subject property. <u>Adjoining Properties</u> : There are no significant changes to the adjoining properties that are apparent.
2016	City permit	October 17, 2016, demolition permit #16100043 for the former bank building
2018	ALTA survey report	June 2018, Chicago Title Company of Washington; current owner is listed as Lone Wolf Development, LLC; Public Utility District #1 of Clark County has an easement noted as of May 1953 for underground electric and communication distribution
2019	Aerial photograph	<u>Subject Property</u> : There are no changes to the subject property. <u>Adjoining Properties</u> : The southeast adjacent property no longer has a structure present. There are no other significant changes to the adjoining properties.
	Survey	In August 2019, Olson Engineering Inc. Land surveyor's engineers surveyed the subject property. The property is described as a portion of Block 8, Washougal City. This portion of the property lies on the SE ¼ of the SE ¼ section 7 Township 1N, Range 4E. C Street is shown 30 feet north of the subject property. Pendleton Way is located 30 feet west; Main Street is located 30 feet south. Durgan Street is located 30 feet west of the subject property.

Summary of Property Use from Historical Sources

In 1929 the northeast portion of the subject property is use as an auto wash and battery charging and a grain warehouse was present on the southwest corner of the site. By 1948 the property was in residential use along with the auto and grain businesses. By 1980 the residential and business structures were demolished. The subject property has been used as a parking lot for nearby businesses since at least 1990.

4.2 City Directories

City directories were searched using EDR. A listing of the directory listings is included in Appendix D. A summary of the findings is presented below.

Subject Property:

The subject property is associated with the current address of 1625 Main Street. Main Street does not appear in city directories from years 1976 to 2005; the Main Street listing does appear in the city directories in 2010 and 2014. However, the subject property address was not listed. Historically the property was addressed as B Street.

Adjoining properties:

The north-adjacent property at 1615 C Street is listed as residential between 1982 and 2014. The property was listed as an artist's studio in 2005 and 2010. The second north-adjacent property at 1701 C Street is listed as Washougal City Hall/City of Washougal between 1982 and 2014.

The western adjacent properties are in residential use from at least 1982.

4.3 Previous Environmental Assessments

In 2004, PBS Engineering and Environmental Inc. conducted a Phase I ESA for three properties owned by Lone Wolf Development LLC including the subject property. No RECS were noted for the subject property.

4.4 Activity and Use Limitations

PBS did not identify environmental liens, activity and use limitation (AULs), or easements and equitable servitudes on the subject property during this study.

4.5 Data Failure

Data failure was encountered while conducting the historical research for this Phase I ESA report. Data failure occurs when the standard historical sources reasonably ascertainable and likely to be useful have been reviewed, but the objectives in ASTM E1527-13 Sections 8.3.1 through 8.3.2.2 have not been met. If the data failure represents a significant data gap, the impact of this data gap shall be discussed in section 8.1 of this Phase I ESA report.

The following data failure occurred:

- The history of the property could not be established back to first development. Readily available records show the property in use as an auto wash building and a battery charge building in the northeast corner and a grain warehouse in the southwest corner in 1929. Based on these records, land use prior to this was likely residential/agricultural. PBS does not view this data failure as a significant data gap and the data failure does not change the conclusions or opinion of PBS as stated in this Phase I ESA.
- Several time periods exist for which data could not be gathered every five years (see source tables above). Section 8.3.2.1 of ASTM E1527-13 indicates that if the specific use of the property appears unchanged over a period longer than five years, then research of its use during that period is not required. PBS does not view this data failure as a significant data gap and the data failure does not change the conclusions or opinion of PBS as stated in this Phase I ESA.

5 SITE RECONNAISSANCE

5.1 Methodology and Limiting Conditions

The site reconnaissance was conducted by Samantha Vega, staff geologist, PBS environmental professional (EP), with oversight by Claudia Byes-Lund, project scientist, a PBS environmental professional (EP), on November 20, 2019, to observe and document site conditions and visible indications of existing environmental conditions.

The entirety of the subject property was accessed. Photographs of the Site are included in Appendix E.

5.2 Site and Vicinity General Characteristics

The subject property is a 0.23-acre parcel located in downtown Washougal, Washington. The subject property is generally flat and is in use as a municipal parking lot. The subject property has residences and businesses nearby.

Site Operations/Processes

The Site is used as a municipal parking lot.

Exterior Improvements

The Site can be accessed from C Street and Main Street. The Site is currently being used as a municipal parking lot and has a sidewalk along the property boundary. The surrounding area of the property is in use of residential use with businesses.

Utilities

Water Supply: None at this time
Sewage System: None at this time
Stormwater: City of Washougal
Heating Source: Not applicable

5.3 Site Conditions and Observations

Note: The PBS Field Checklist, Appendix E, may detail additional field observations not described below.

Aboveground and Underground Storage Tanks

The Site has no indications of aboveground storage tanks (ASTs) or USTs, such as vent pipes or fill pipes, were observed on the subject property's grounds during the site reconnaissance.

Drywells, Injection Wells, Septic Systems

None of these features were observed and/or known to be present on the subject property.

Floor Drains, Catch Basins, Sumps, Oil/Water Separators

Two catch basins were observed during the Site reconnaissance on the property. These were generally free of debris, with no sheens, stains or odors noted.

Hazardous Substances, Petroleum Products, Unidentified Containers

Hazardous substances, petroleum products, or unidentified containers were not observed during the time of the site reconnaissance.

Improper Dumping/Solid Waste Disposal

No indications of improper solid waste disposal were observed during the site reconnaissance.

Pits, Ponds, Lagoons, Surface Impoundments

None of these features were observed on the subject property.

Polychlorinated Biphenyls (PCBs)

PCBs were once used in the manufacture of electrical equipment (transformers) and hydraulic fluids. Now considered hazardous substances under CERCLA rules, the manufacture of PCBs was banned in 1979. Examination or sampling of individual building components or fixtures for PCBs is not within the scope of the Phase I ESA; no potential PCB-containing features such as transformers were noted.

Stains, Sheens, Odors

None of these conditions were observed on the subject property.

Wells

Water supply wells and monitoring wells were not observed on the subject property.

Other Conditions of Concern

No other conditions of concern were observed on the subject property during the site reconnaissance.

5.4 Observed Current Use of Adjoining Properties

North: C Street, Washougal Community Library, and City of Washougal Public Works Executive Office

South: Main Street and United States Post Office

East: Dental Excellence and vacant gravel lot

West: Durgan Street, residences, and Vacant lot

These properties were viewed from the subject property or the nearest public right-of-way. No conditions of environmental concern were observed.

6 INTERVIEWS

The section below summarizes information obtained from interviews and questionnaires completed by the Client/User, property owner, and/or other key personnel.

6.1 Interview with Client/User

In addition to completing a written questionnaire regarding the subject property, Amelia Shelly, representative of FURL was interviewed. Information obtained from the interview/questionnaire is summarized below. A copy of the questionnaire is provided in Appendix F. The interview and questionnaire are summarized as follows:

- Ms. Shelly is not aware of any environmental cleanup liens against the property that are filed under federal, tribal, state, or local law.
- Ms. Shelly is not aware of any activity and land use limitations.
- Ms. Shelly does not have specialized knowledge or experience that may be material to the identification of recognized environmental conditions on the subject property.
- Ms. Shelly stated that the purchase price being paid for this property does not reflect the fair market value of the property.
- Ms. Shelly stated that the property is the subject of a donation to FURL by the Lone Wolf Investment Inc. and Wes Hickey and Diane Hickey.
- Ms. Shelley stated the She believes the past use was for a bank on the property that was demolished approximately two years ago.
- Ms. Shelly stated that she does not know of specific chemicals that are present or once present at the property.
- Ms. Shelly stated that she is unaware of any spills or chemical released that have taken place at the property.
- Ms. Shelly is unaware of any environmental cleanups that have taken place at the property.
- Ms. Shelly state that based on her knowledge and experience related to the property, there are not any obvious indicators that point to the presence or likely presence of contamination at the property.

6.2 Interview with Owner

The PBS standard Property Owner/Representative Questionnaire was completed by Wes Hickey, current property owner, and is included in Appendix F. The interview and questionnaire are summarized as follows:

- Mr. Hickey has owned the property since 2004.
- Mr. Hickey stated that the previous owner of the property was Green Arbor Development.
- Mr. Hickey stated that the known historical use of the property has been as a parking lot for adjoining offices.
- Mr. Hickey stated that there is not a water well on-site.
- Mr. Hickey stated that there are no environmental liens or property-use limitation such as deed restrictions.
- Mr. Hickey stated that the property's purchase price had not been devalued due to environmental conditions.

- Mr. Hickey stated that there have not been any past or recurrent violations of environmental laws with respect to the property or any facility located on the property, resulting in governmental notification.
- Mr. Hickey stated that there has been a previous Phase I environmental assessment by PBS in September 2004.
- Mr. Hickey stated that there is no pending, threatened or past lawsuits or administrative proceedings concerning a release or threatened release of any hazardous substances or petroleum products on the property.
- Mr. Hickey stated that there have been geotechnical studies and prior environmental site assessments regarding the property.
- Mr. Hickey stated that a pre-demolition survey was completed by PBS for the adjacent office building prior to demolition (1625 Main Street). The report is dated December 2013.

6.3 Interview with Previous Owner(s)

An interview with the previous owner was not conducted due to the time of ownership of the current owner. Based on available historical and regulatory information for the subject property, this does not impact the ability of PBS to identify recognized environmental conditions (RECs).

6.4 Interviews with Site Manager, Occupants, or Employees

No interview with site manager, occupants or employees were conducted for this report.

6.5 Interviews with Local Government Officials

Interviews with local government officials were previously summarized in section 3.1, and are not repeated here.

6.6 Interviews with Others

No other interviews were conducted for this report.

7 NON-SCOPE CONSIDERATIONS

Non-scope considerations are issues or conditions at the subject property that could pose a business risk to an owner or prospective purchaser but are not included in a standard Phase I ESA. PBS assesses non-scope considerations only when requested to do so by the Client.

There were no non-scope considerations requested by the Client.

8 EVALUATION

The sections below present the findings, opinion, and conclusions of this Phase I ESA.

8.1 Findings and Opinion

This Phase I ESA identified the following:

1. The subject property was occupied by an auto wash business and a battery charging business during the 1920s. The structures remained on the Site through the 1960s. It is unknown if auto repair activities also occurred on the property. This represents a high environmental concern.
2. Residential structures were located on the west side of the subject property from approximately the 1930s through the 1960s. There is the potential for undocumented, underground heating oil tanks at the Site. Any future redevelopment plans should consider the possibility of encountering such tanks which are required to be properly decommissioned consistent with Washington Department of Ecology requirements.
3. Surrounding properties to the north, southeast and west were once utilized by auto repair garages or gas stations, with a gas station remaining to the southwest. This represents a high environmental condition.

8.2 Conclusions

PBS has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E-1527-13 of Main and Durgan Streets in Washougal, Washington, the subject property. Any exemptions to, or deletions from, this practice are described in section 1 of this report. This assessment has revealed no evidence of RECs in connection with the property.

Data Gaps

No data gaps were identified during this study.

Additional Investigation

Additional investigation is warranted to address historical use of the northeast corner of the property as an auto wash and battery charging business and to evaluate the potential for migration of potential contaminants by soil vapor from historical automotive related businesses to the north and south of the property.

9 SIGNATURES

PBS respectfully submits the results of our Phase I Environmental Site Assessment. We appreciate the opportunity to provide our recommendations for your project. If you have additional concerns, please do not hesitate to contact us at 503.417.7692.

Sincerely,
PBS Engineering and Environmental Inc.

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the All Appropriate Inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Claudia Byes-Lund
PBS Project Scientist

10 ASSUMPTIONS AND LIMITATIONS

10.1 Significant Assumptions

Client's Responsibilities

It is assumed that the User has provided PBS with title and lien records, actual knowledge of environmental liens or activity and use limitations encumbering the property, any specialized knowledge or experience material to recognized environmental conditions in connection with the property, any commonly known or reasonably ascertainable information material to recognized environmental conditions on the property, and the reason why the property may have a significantly lower purchase price than comparable properties, if applicable (User Responsibilities, ASTM E1527-13, Section 6.0).

It is further assumed that the Client will read this report in its entirety (text and attachments) before making decisions based on the findings of the report.

Groundwater Flow

Groundwater flow direction has been determined based on topography in the area of the subject property; the assumption is that shallow groundwater flow will follow topography. No site-specific field measurements of groundwater flow direction (such as installation of groundwater monitoring wells) have been performed.

Based on this interpretation, PBS has reviewed regulatory agency information for sites located in a presumed upgradient direction that, based on proximity and knowledge of potential contaminant fate and transport, may potentially impact the subject property.

Accuracy and Completeness

The public records search is performed by PBS with the understanding that such records may be inaccurate or incomplete, and that the ability of public agencies to retrieve records may be variable or inconsistent over time. Similarly, PBS interviews of knowledgeable persons are performed in good faith that information provided is reasonably accurate and truthful. It may not always be feasible or appropriate for PBS to determine the accuracy of conflicting information, and this determination is pursued at the environmental professional's discretion.

10.2 Limitations and Exceptions

Unless noted elsewhere in this proposal, the scope of work for the project does not address a number of potentially significant environmental issues including, but not limited to, hazardous materials audit, environmental compliance, vapor encroachment assessment per ASTM standard E2600-10, formaldehyde, radon, asbestos-containing building materials, PCBs, lead-containing paint, mold, wetlands and other land use issues, drinking water quality, geotechnical or geologic hazards, nor does it include subsurface exploration or chemical screening of soil and groundwater beneath the subject property.

Recognized environmental conditions are defined in paragraph 3.2.78 of ASTM E1527-13 and the complete text is included in the glossary of this document. The vague and ambiguous nature of recognized environmental conditions as defined by the ASTM standard may result in reasonable minds differing as to whether any observed condition at a site is a recognized environmental condition. There may be other conditions noted in this report that could be considered recognized environmental conditions by other persons. Accordingly, the Client is advised that no warranty is given that other experts may agree that site conditions noted herein are recognized environmental conditions. Users of this report are encouraged to review the report in its entirety and specifically to consider all site conditions described and not merely those classified herein as recognized environmental conditions.

When an assessment is completed without surface exploration or chemical screening of soil and groundwater beneath the subject property, as in this study, no statement of scientific certainty can be made regarding latent subsurface conditions that may be the result of on-site or off-site sources. PBS is not able to represent that the Site or adjoining land contains no hazardous substances including petroleum, or other latent conditions beyond that identified by PBS during the study. The possibility always exists for contaminants to migrate undetected through surface water, air, soil, soil gas, or groundwater. The ability to accurately address the environmental risk associated with transport in these media is beyond the scope of this study.

The findings and conclusions of this report are not scientific certainties but are based on professional judgment concerning the significance of the data gathered during the course of the Phase I ESA. The conclusions in this report are not to be considered a legal opinion or advice as to the Client's duty concerning due diligence and all appropriate inquiry relating to potential liabilities in leasing, owning, or purchasing real estate.

The ASTM method does not require a search interval of fewer than five years; this search interval is not guaranteed to identify all prior tenants or occupants of the subject property (please refer to the table in section 4.1 Standard Historical Resources for search intervals achieved for this report.) The PBS investigator reviewed sources that are publicly available, available within a reasonable time and cost, and reasonably ascertainable and considered practically reviewable, as defined under the ASTM standard. In addition, these criteria are applied keeping in mind sources that are likely to provide information concerning possible recognized environmental conditions at the subject property. PBS has reviewed sources of information that we consider meeting these criteria. In cases where the history of the subject property is not traced prior to its first-developed use, this condition is considered a data failure and not an exception to the required scope of work. If the data failure represents a significant data gap, this will be discussed in the report.

10.3 Data Gaps

A data gap results from a lack of, or inability to, obtain information required by the ASTM method, despite good faith efforts to gather such information. Our report identifies and comments on significant data gaps that have affected our ability to identify recognized environmental conditions.

10.4 Client Reliance

PBS acknowledges that only the Client (User of the report) may rely upon the information, findings, opinions, and conclusions set forth in this report, subject to the conditions and limitations contained in this report, and as set forth in our contract. This report is for the exclusive use of the User and is not to be relied upon by other parties unless specifically indicated. Reliance on this report by other parties will require a fee from those parties, and a written agreement from PBS, and will be subject to the same conditions and limitations contained in the contract between PBS and the User. Any other use of, or reliance on, this report by any third party is at that party's sole risk.

This report was prepared with the standard of care and skill ordinarily recognized under similar circumstances by members of its profession in the state and region at the time the services are performed. No warranties, expressed or implied, are made.

This report provides information on the subject property only as specified in the scope of work based on conditions at the time of the study. Additional information may become available that differs significantly from our understanding of conditions presented in this report. If this occurs, we request that this information be brought to our attention so that we may reassess the conclusions provided herein.

11 RESOURCES

11.1 References

Many references, primarily internet-based and governmental resources, are cited within the text of this report and are not repeated on this page.

11.2 Glossary

Note: Definitions without a specific citation are derived from PBS project and industry experience.

Abandoned Property. A property that can be presumed to be deserted, or an intent to relinquish possession or control can be inferred from the general disrepair or lack of activity thereon such that a reasonable person could believe that there was an intent on the part of the current owner to surrender rights to the property. (ASTM E1527-13, Section 3.2.1)

Activity and Use Limitations (AULs). Legal (institutional) or physical (engineering) restrictions or limitations on the use of, or access to, a site or facility, to reduce or eliminate potential exposure to hazardous substances or petroleum products in soil or groundwater, or to prevent activities that could interfere with the effectiveness of a response action in order to ensure maintenance of a condition of no significant risk to public health or the environment. These legal or physical restrictions, which may include institutional and/or engineering controls are intended to prevent adverse impacts to individuals or populations that may be exposed to hazardous substances and petroleum products in the soil or ground water on the property. (ASTM E1527-13, Section 3.2.2)

Adjoining Properties. Any real property or properties the border of which is contiguous or partially contiguous with that of the property, or that would be contiguous or partially contiguous with the property but for a street, road, or other public thoroughfare separating them. (ASTM E1527-13, Section 3.2.4)

All Appropriate Inquiry (AAI). That inquiry constituting "All Appropriate Inquiry" into the previous ownership and uses of the property consistent with good commercial or customary practice, as defined in CERCLA, 42 U.S.C. §9601(35)(B), that will qualify a party to a commercial real estate transaction for one of the threshold criteria for satisfying the LLPs to the CERCLA liability (42 U.S.C. §9601(35)(A)&(B), §9607 (b)(3), §9607(q); and §9607(r)), assuming compliance with other elements of the defense. (ASTM E1527-13, Section 3.2.6)

Approximate Minimum Search Distance. The area for which records must be obtained and reviewed pursuant to Section 8 of ASTM Standard Practice E1527-13 subject to the limitations provided in that section. This may include areas outside the property and shall be measured from the nearest property boundary. This term is used in lieu of radius to include irregularly shaped properties. (ASTM E1527-13, Section 3.2.7)

Business Environmental Risk. A risk which can have a material environmental or environmentally-driven impact on the business associated with the current or planned use of a parcel of commercial real estate, not necessarily limited to those environmental issues required to be investigated in this practice. Consideration of business environmental risk issues may involve addressing one or more non-scope considerations some of which are identified in the report (ASTM E1527-13, Section 3.2.11)

Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA), 42 USC 9601 et seq. (ASTM E1527-13, Section 3.3.2)

Contaminated Aquifer Policy: Oregon and Washington environmental agencies will not hold a property owner liable for groundwater contamination that has migrated from an upgradient property. This indemnity is granted under the assumption that the property owner is not responsible for the release of the contamination, is not financially associated with the property from which the contamination originated, and did nothing to exacerbate the problem. Certain restrictions might be placed on the use of groundwater on the site (such as an irrigation or drinking water well could not be installed on the property). The property owner should ensure that the contamination does not present a health risk to on-site occupants. (5/20/04 DEQ Contaminated Aquifer policy, Washington RCW 70.105D.020(17)(iii)F(iv))

Continuing Obligations. After completion of an AAI-compliant Phase I ESA, there are continuing obligations of the User required under 2002 Brownfields Amendment to maintain landowner liability protections. These include:

1. Complying with land use restrictions and not impeding the effectiveness or integrity of institutional controls.
2. Taking "reasonable steps" with respect to hazardous substances affecting a landowner's property to stop continuing releases, prevent threatened future releases, and prevent exposure to earlier releases.
3. Providing cooperation, assistance, and access to the EPA, a state, or other party conducting response actions or natural resource restoration at the property.
4. Complying with CERCLA information requests and administrative subpoenas.
5. Providing legally required notices relating to the discovery or release of hazardous substances on the property (40 CFR Part 312, Section II – Background, Item D).

Controlled Recognized Environmental Condition (CREC). A recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls). (See ASTM Note 2.) A condition considered by the environmental professional to be a controlled recognized environmental condition shall be listed in the findings section of the Phase I Environmental Site Assessment report, and as a recognized environmental condition in the conclusions section of the Phase I Environmental Site Assessment report. (See ASTM Note 3.) (ASTM E1527-13, Section 3.2.18)

ASTM Note 2: For example, if a leaking underground storage tank has been cleaned up to a commercial use standard, but does not meet unrestricted residential cleanup criteria, this would be considered a controlled recognized environmental condition. The "control" is represented by the restriction that the property use remains commercial.

ASTM Note 3: A condition identified as a controlled recognized environmental condition does not imply that the environmental professional has evaluated or confirmed the adequacy, implementation, or continued effectiveness of the required control that has been, or is intended to be, implemented.

Data Failure. A failure to achieve the historical research objectives in Section 8.3.1 through 8.3.2.2 of ASTM E1527-13 even after reviewing standard historical sources in 8.3.4.1 through 8.3.4.8 of ASTM E1527-13 that are reasonably ascertainable and likely to be useful. Data failure is a type of data gap. (ASTM E1527-13, Section 3.2.20)

Data Gap. A lack of, or inability to obtain required information by ASTM E1527-13 despite good faith efforts to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice, including, but not limited to site reconnaissance (for example, an inability to conduct the site visit), and interviews (for example, an inability to interview the key site manager, regulatory officials, etc). The report will identify and comment on significant data gaps that affect the ability of the EP to identify recognized environmental conditions. (ASTM E1527-13, Section 3.2.21)

De minimis Condition. Condition that generally does not present a material risk of harm to public health or the environment or that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis* are not recognized environmental conditions.

Environmental Professional. A person meeting the education, training, and experience requirements set forth in 40 CFR §312.10(b). That person may be an independent contractor or an employee of the User. (ASTM E1527-13, Section 3.2.32)

Hazardous Substance. A substance defined as a hazardous substance pursuant to CERCLA 42 USC §9601 (14), as interpreted by EPA regulations and the courts: "(A) any substance designated pursuant to Section 1321 (b)(2)(A) of Title 33, (B) any element, compound, mixture, solution, or substance designated pursuant to Section 9602 of this title, (C) any hazardous waste having the characteristics identified under or pursuant to Section 3001 of the Solid Waste Disposal Act (42 USC 6921) (but not including any waste the regulation of which under the Solid Waste Disposal Act (42 USC §9601 et seq.) has been suspended by act of Congress), (D) any toxic pollutant listed under Section 1317(a) of Title 33, (E) any hazardous air pollutant listed under Section 112 of the Clean Air Act (42 USC 7412), and (F) any imminently hazardous chemical substance or mixture with respect to which the administrator (of EPA) has taken action pursuant to Section 2606 of Title 15. The term does not include petroleum, including crude oil or any fraction thereof which is not otherwise specifically listed or designated as a hazardous substance under subparagraphs (A) through (F) of this paragraph, and the term does not include natural gas, natural gas liquids, liquefied natural gas, or synthetic gas usable for fuel (or mixtures of natural gas and such synthetic gas)." (ASTM E1527-13, Section 3.2.39)

PBS Note: The term hazardous substances, as it is used in this report, describes both hazardous substances and petroleum products. It does not include hazardous building materials.

Historical Recognized Environmental Condition (HREC). A past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls). Before calling the past release a historical recognized environmental condition, the environmental professional must determine whether the past release is a recognized environmental condition at the time the Phase I Environmental Site Assessment is conducted (for example, if there has been a change in the regulatory criteria). If the EP considers the past release to be a recognized environmental condition at the time the Phase I ESA is conducted, the condition shall be included in the conclusions section of the report as a recognized environmental condition. (ASTM E1527-13, Section 3.2.42)

Landowner Liability Protections (LLPs). Landowner liability protections provided under CERCLA; these protections include the bona fide prospective purchaser liability protection, contiguous property owner liability protection, and innocent landowner defense from CERCLA liability. See 42 U.S.C. §§ 9601(35)(A), 9601(40), 9607(b), 9607(q), 9607(r). (ASTM E1527-13, Section 3.2.49)

Other Issues of Concern. Issues that could potentially result in adverse environmental impacts to the subject property. They are not included as recognized environmental conditions because insufficient evidence was collected during the course of this study to come to the conclusion that the condition(s) has resulted in the "presence or likely presence" of contamination to soil and/or groundwater on the subject property.

Petroleum Products. Those substances included within the meaning of the petroleum exclusion to CERCLA, 42 U.S.C. §9601(14), as interpreted by the courts and EPA; that is: petroleum, including crude oil or any fraction thereof which is not otherwise specifically listed or designated as a hazardous substance under Subparagraphs (A) through (F) of 42 U.S.C. § 9601(14), natural gas, natural gas liquids, liquefied natural gas, and synthetic gas usable for fuel (or mixtures of natural gas and such synthetic gas). (The word fraction refers to certain distillates of crude oil, including gasoline, kerosene, diesel oil, jet fuels, and fuel oil, pursuant to Standard Definitions of Petroleum Statistics.) (ASTM E1527-13, Section 3.2.65)

Practically Reviewable. Information that is practically reviewable means that the information is provided by the source in a manner and in a form that, upon examination, yields information relevant to the property without the need for extraordinary analysis of irrelevant data. The form of the information shall be such that the User can review the records for a limited geographic area. Records that cannot be feasibly retrieved by reference to the location of the property or a geographic area in which the property is located are not generally practically reviewable. Most databases of public records are practically reviewable if they can be obtained from the source agency by the county, city, zip code, or other geographic area of the facilities listed in the record system. Records that are sorted, filed, organized, or maintained by the source agency only chronologically are not generally practically reviewable. Listings in publicly available records which do not have adequate address information to be located geographically are not generally considered practically reviewable. For large databases with numerous records (such as RCRA hazardous waste generators and registered underground storage tanks), the records are not practically reviewable unless they can be obtained from the source agency in the smaller geographic area of zip codes. Even when information is provided by zip code for some large databases, it is common for an unmanageable number of sites to be identified within a given zip code. In these cases, it is not necessary to review the impact of all of the sites that are likely to be listed in any given zip code because that information would not be practically reviewable. In other words, when so much data is generated that it cannot be feasibly reviewed for its impact on the property, it is not practically reviewable. (ASTM E1527-13, Section 3.2.69)

Publicly Available. Information that is publicly available means that the source of the information allows access to the information by anyone upon request. (ASTM E1527-13, Section 3.2.72)

Reasonably Ascertainable. Information that is (1) publicly available, (2) obtainable from its source within reasonable time and cost constraints, and (3) practically reviewable. (ASTM E1527-13, Section 3.2.77)

Recognized Environmental Condition (REC). The presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. *De minimis* conditions are not recognized environmental conditions. (ASTM E1527-13, Section 3.2.78)

Subject Property (ASTM standard uses the term Property). The real property that is the subject of this Environmental Site Assessment. Real property includes buildings and other fixtures and improvements located on the property and affixed to the land. (ASTM E1527-13, Section 3.2.70)

User. The party seeking to use ASTM Practice E1527 to complete an Environmental Site Assessment of the property. A User may include, without limitation, a potential purchaser of property, a potential tenant of property, an owner of property, a lender, or a property manager. The User has specific obligations for completing a successful application of this practice as outlined in Section 6 of Practice E1527. (ASTM E1527-13, Section 3.2.98)

11.3 Cross Reference for ASTM E1527-13 Requirements

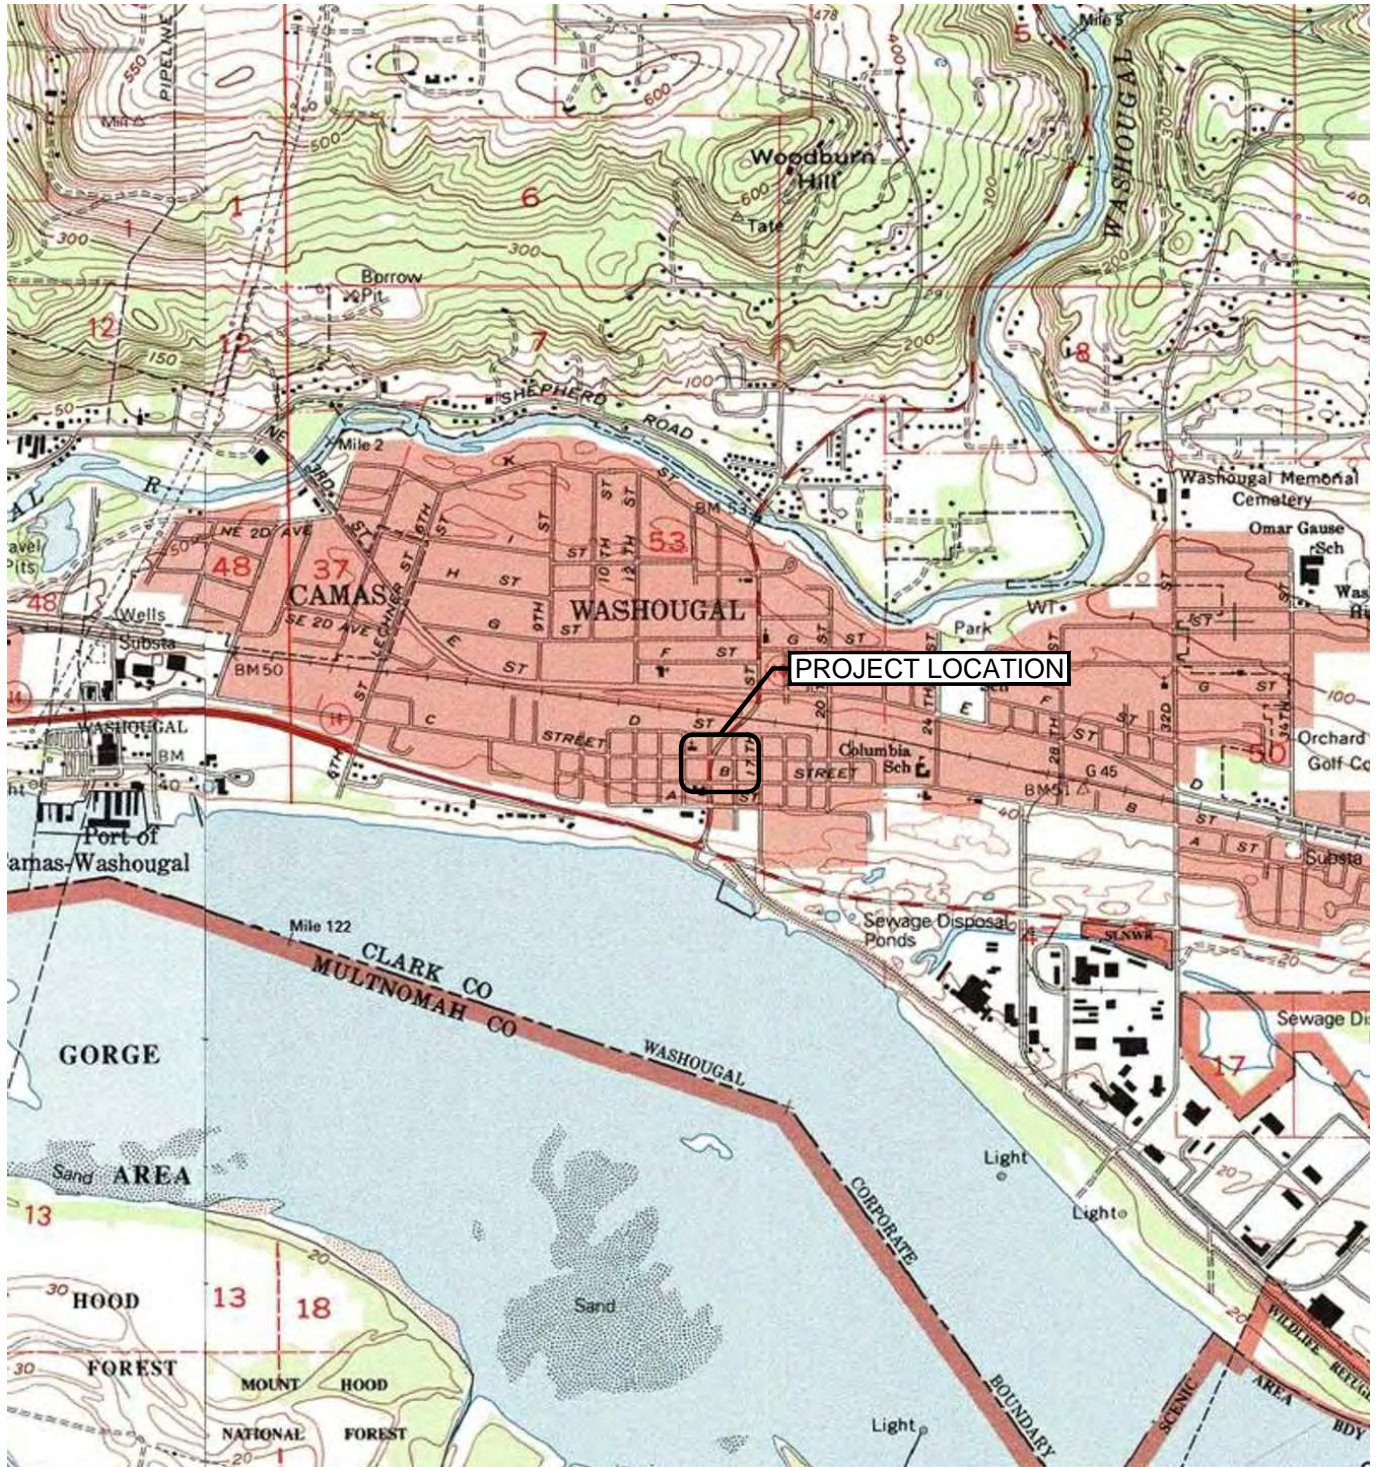

This table provides an easy cross reference for ensuring that the PBS Phase I ESA report complies with ASTM E1527-13. The ASTM recommended format is found in Appendix X4 of the standard.

ASTM Recommended Format	Provided in PBS Report Page/Section Number
X4.1 Summary	Executive Summary
X4.2 Introduction	Sections 1 and 2
X4.3 User Provided Information	Sections 1, 4 and 6, Appendix F
X4.4 Records Review	Sections 3 and 4, Appendices B, C, and D
X4.5 Site Reconnaissance	Section 5, Appendix E
X4.6 Interviews	Section 6
X4.7 Evaluation	Section 8
X4.8 Non-Scope Services	7
X4.9 Appendices	Appendices A, B, C, D, E, and F

PBS Proposal to Provide a Phase I Environmental Site Assessment/Contract
Resumes/Staff Qualifications

November 4, 2019

Amelia Shelley
Fort Vancouver Regional Libraries
1007 E Mill Plain Boulevard
Vancouver, Washington 98663

Via email: ashelley@fvrl.org

Regarding: Proposal to Provide a Phase I Environmental Site Assessment
 Lots 3 through 6, West Side of Block 8
 North of Main Street and East of Durgan Street
 Washougal, Washington
 PBS Proposal 24061.000

Dear Ms. Shelley:

PBS Engineering and Environmental Inc. (PBS) is pleased to submit this proposal to the Fort Vancouver Regional Libraries (FVRL) to provide Phase I Environmental Site Assessment (ESA) services for the property located on the west side of Block 8 in Washougal, Washington.

This proposal outlines our project approach, scope of work, schedule, and budget for PBS services based on our understanding of the project, information provided to us to date, and experience with similar projects.

PROJECT UNDERSTANDING AND APPROACH

PBS understands that the subject property consists of four tax lots, approximately 0.40 acres in total area, and currently in parking lot use. FVRL forwarded a Perimeter Legal Description of these tax lots for property verification purposes.

PBS' scope of work follows ASTM International's E1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process, approved by the Environmental Protection Agency (EPA) in November 2013, for conducting all appropriate inquiries (AAI) to protect innocent landowners, bona fide prospective purchasers, and contiguous property owners from CERCLA liability.

PBS investigators meet the environmental professional (EP) criteria, and bring many years of diverse experience to this project. The following scope of work and compensation are based on PBS' understanding of current structures, site conditions, and usage.

SCOPE OF WORK

A more detailed scope of work is attached to this proposal and contains important assumptions related to the completion of this work. Please review this section carefully.

DELIVERABLE

An electronic copy of the final report will be provided.

COMPENSATION ESTIMATE

Phase I Environmental Site Assessment (Flat Fee)

The fees and terms under which these services are provided will be in accordance with the attached terms and conditions for professional services. The PBS terms and conditions and this proposal constitute the entire agreement (Agreement) between the parties and may not be changed without prior written consent of the parties.

The pricing and other information contained in this proposal document are proprietary and shall not be duplicated, used, or disclosed, in whole or in part, to other parties without the permission of PBS.

ASSUMPTIONS

PBS' compensation estimate includes the following assumptions:

- Review of an existing title report if supplied by the Client.
- PBS provides recommendations in the Phase I ESA report, unless otherwise instructed.
- Following issuance of the final report, if information is subsequently provided to PBS that warrants report revisions or amendments, the additional work will be charged on a time and materials basis.
- Other services provided on a time and materials fee scale include draft reports, additional report hard copies, Client-requested in-person meetings, and conference calls to discuss findings. These services will be communicated to the Client before extra charges are incurred.
- A standard PBS reliance letter to third parties will be provided at no additional cost within 60 days of report completion. Letters provided after 60 days may be requested for an additional fee. Client- or lender-specific reliance letters will be reviewed by PBS and may be associated with a higher fee.

SCHEDULE

PBS is available to begin services immediately upon receipt of a signed copy of this Agreement. The scope of work will be completed within approximately four weeks of receiving the signed Agreement. Please review Agency File Check in the Scope of Work attachment regarding potential impacts to this schedule.

Please contact me if the schedule does not meet your requirements.

APPROVAL

Please indicate acceptance of this Agreement by returning a signed copy of this Agreement or a purchase order incorporating the terms and conditions of the Agreement, along with the attached Project Checklist and Client/User Questionnaire fully completed.

The signed Agreement, Project Checklist, and Client/User Questionnaire can be emailed to claudia.byes-lund@pbsusa.com.

Please feel free to contact me at 503.417.7692 or the above noted email address with any questions or comments.

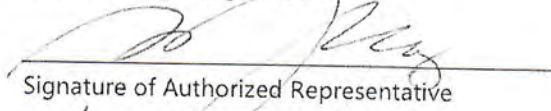

Sincerely,

Digitally signed by
Claudia Byes-Lund

Phase 1 ESA Scope of Work and Limitations
General Terms and Conditions for Limited Professional Services (Rev. 10/2018)

Site Address: Lots 3 through 6, West Side of Block 8
North of Main Street and East of Durgan Street, Washougal, WA

Please provide the following information regarding site access, report submittal, and other documents relevant to the completion of a Phase I ESA.

Why is this Phase I ESA being performed? (e.g., to obtain refinancing, for purchase/sale)

Donation of property for a library

Who should we contact for site access? (Please provide name, telephone number, and email address.)

*Wes Hickey, 1700 Main Street #200, Washougal, WA 98671
360-335-1945 wes@lonewolfinvestments.com*

To whom should we address the report, if different than the client? (Please provide name and address.)

Amelia Shelley, FVRL

The following documents are useful to PBS when completing this assessment. Please provide if available:

- Preliminary title report / chain of title
 - Previous environmental assessment reports
 - Tax map, legal description, aerial photograph
 - Special requirements for the assessment (e.g., non-ASTM tasks required by lender, lender-specific reliance letters)
-) PBS performed in 2006*

ADDITIONAL SERVICES (Optional)

Phase I ESAs assess CERCLA liability. Building- and land-related environmental conditions may contribute to non-CERCLA "business environmental risks," and can include asbestos, lead-based paint, mold, radon, wetlands, and other issues.

The following additional services, which are non-Phase I ESA tasks not included in this proposal, can also be provided by PBS but will be **associated with a separate scope of work, additional fees, and extended completion schedules**. Please check the boxes of additional services desired and PBS will contact you to discuss them.

<input type="checkbox"/> Asbestos-containing materials testing	<input type="checkbox"/> Health and safety audit
<input type="checkbox"/> Lead-in-paint testing	<input type="checkbox"/> Regulatory compliance audit
<input type="checkbox"/> Radon testing	<input type="checkbox"/> On-site drywell registration (UICs)
<input type="checkbox"/> Mold testing	<input type="checkbox"/> Vapor migration assessment per ASTM E2600-10
<input type="checkbox"/> Drinking water testing	<input type="checkbox"/> Greenhouse gas emissions/carbon footprint
<input type="checkbox"/> NEPA/SEPA survey	<input type="checkbox"/> Cultural and historic resources survey
<input type="checkbox"/> Wetland determination/delineation	<input type="checkbox"/> Geotechnical evaluation
<input type="checkbox"/> Water rights evaluation	<input type="checkbox"/> ALTA Survey
<input type="checkbox"/> Other (please contact PBS to discuss)	

PBS Phase I ESA Scope of Work

The scope of work for this project includes a review of applicable environmental databases, a review of readily available records to document past and current uses of the subject property and adjoining properties, interviews with persons with knowledge of the site, a site reconnaissance, and a final report summarizing PBS' findings and conclusions. PBS has prepared this report using information that is *reasonably ascertainable*, that is, information that is *practically reviewable, publicly available*, and obtainable from its source within reasonable time and cost constraints.

PBS will provide the following specific scope of services:

1. *Initial Meeting:* Discuss the project, in person or on the phone, with the property owner or other key personnel to obtain any information that may be relevant to the site or adjoining land. Interviews with past owners, occupants, and operators of the site will also be conducted. An environmental questionnaire will be submitted to the current owner as well as other persons identified as having specific knowledge of the site.

In order to qualify as AAI and meet ASTM E1527-13 requirements, it is understood that the client will complete the Client/User Questionnaire.

2. *Agency File Check:* Using a commercial database search provider, search federal, state, tribal, and local listings or records per ASTM E1527-13 and AAI requirements, including activity and use limitations databases, to identify known hazardous substance violations, contaminant discharges, and other environmental problems for varying distances based upon their relative potential impact to the subject property.
 - PBS relies on readily available electronic database information whenever possible. A physical file review may be undertaken, if needed, to resolve specific questions regarding the subject property or adjoining properties. In the event that file review requires more than one hour to complete, and/or travel is more than 30 miles from PBS' nearest branch office, additional expenses will be charged.
 - In the event in-person file review is deemed critical to assessment of the subject property, PBS will schedule an appointment with the agency as soon as feasible. If the appointment date requires an extension of the noted time frame for project completion, PBS will immediately discuss this with the client.
3. *Geologic Research:* As appropriate, review available soils, geology, engineering, groundwater or other reports regarding the property and the immediate vicinity.
4. *Historical Review:* Review aerial photographs of the site and adjacent properties to assess previous site conditions and operations (if available). Other historical information that may be reviewed at the discretion of the EP includes Sanborn fire maps, city directories, building permits, or property chain of title information or preliminary title report (if provided by the client) to determine history of usage. Whenever feasible, the history of the property will be traced to 1940 or to a time prior to its earliest developed use, whichever is earlier.
5. *Physical Inspection:* PBS assumes that the site is accessible and safe to enter and perform the assessment. An EP or qualified staff working under the guidance of an EP, will conduct one site visit, during which the property and any structures will be visually and/or physically observed for potentially hazardous substances existing in the past or present. A field checklist will be completed, and pertinent observations related to potential environmental conditions on the subject property and the adjoining properties will be recorded. Interviews with the owner, previous owner, on-site personnel, tenants, and other persons familiar with the history of the area may be conducted.

6. *Report:* A report will be prepared containing observations and conclusions relating to the apparent environmental conditions of the site. The report will include a description of the site and conditions encountered, topographic area map and local site and vicinity plan, and documentation of resources including interviews, regulatory and historic records reviewed, data gaps, opinion, and conclusions. As required by ASTM E1527-13, the content will include all documents used by PBS to form an opinion. If appropriate, recommendations will be made in the text of the report, unless PBS is directed otherwise by the client (see Project Checklist for option).

PBS Phase I ESA Limitations

The purpose of this phase of the work is to determine if more in-depth studies are warranted. Observations will be made based on the best available information by trained environmental assessment professionals. It is not intended to be a comprehensive determination of all potential liabilities associated with a particular property, nor is it represented as a legal opinion as to the client's performance of "due diligence" concerning the purchase of real estate. Unless otherwise specified, the scope of work does not include a review/opinion of legal instruments such as indemnification agreements, purchase and sale agreements, liens, etc. Its cursory nature is to be noted by all parties.

Unless noted elsewhere in this proposal, the scope of work for the project does not address a number of potentially significant environmental issues including, but not limited to, hazardous materials audit, environmental compliance, vapor encroachment assessment per ASTM standard E2600, formaldehyde, radon, asbestos-containing building materials, PCBs, lead-based paint, mold, wetlands and other land use issues, drinking water quality, geotechnical or geologic hazards, nor does it include subsurface exploration or chemical screening of soil and groundwater beneath the site.

It is standard practice in the industry to use a commercial database search provider to meet the database search requirements of the ASTM Method. Although PBS reviews its work, the database provider report is subject to the limitations, constraints, inaccuracies, and incompleteness of government information and of computer mapping data and conventions, and any disclaimer of liability made in the database report. The database report is included in an appendix to the PBS report.

The findings and conclusions of the study will not be scientific certainties but will be based on professional judgment concerning the significance of the data gathered during the course of the Phase I ESA. PBS will not be able to represent that the subject property or adjoining land contain no hazardous substances, petroleum, or other latent condition beyond that identified by PBS during the study. The possibility always exists for contaminants to migrate undetected through surface water, air, soil, soil gas, or groundwater. The ability to accurately address the environmental risk associated with transport in these media is beyond the scope of this study.

GENERAL TERMS AND CONDITIONS FOR LIMITED PROFESSIONAL SERVICES

These General Terms and Conditions for Professional Services ("Terms and Conditions") are attached to and made part of the letter proposal and scope of work (collectively, the "SOW") from PBS Engineering and Environmental Inc. ("PBS") to Client (as defined in the letter proposal). The Terms and Conditions and the SOW (collectively, the "Agreement") represent the entire and integrated agreement between Client and PBS. This Agreement supersedes all prior negotiations, representations, or agreements, written or oral. If there are any inconsistencies between the SOW and the Terms and Conditions, the SOW shall control. Any services outside the SOW will be considered an "extra" and billed directly to the Client, outside of the contract amount, on a "Time and Materials" basis in accordance with PBS's currently established bill rates and these Terms and Conditions.

The Agreement memorializes the contractual obligations of PBS and Client with respect to PBS' delivery of professional consulting services to Client as an engineer, consultant, or owner representative.

1. **PROFESSIONAL LIABILITY AND STANDARD OF CARE:** PBS will perform the professional services described in the SOW in accordance with the standard of care and skill ordinarily recognized under similar circumstances by members of its profession in the state and region at the time the services are performed. PBS makes no other warranty, express or implied, in connection with its performance of its professional services. If PBS' services under this Agreement do not include observation or review of contractor performance during construction phase, PBS services are deemed complete on the date the design is completed or if applicable, the date when the approving authority approves the design. Client assumes all responsibility for the application and interpretation of the construction phase review of design.
2. **TERM AND TERMINATION:** This Agreement will remain in full force and effect until all work described in the SOW has been completed and Client has paid for the work in full. Client may terminate this Agreement at any time and for any reason by providing written notice to PBS of its decision to terminate. Client is responsible for payment of all fees for any work performed by PBS through the date and time PBS receives the written termination notice. The amount of fees owed will be established by the SOW and PBS' then current rate schedule. PBS may elect to suspend or terminate this Agreement for nonpayment of its fees. If PBS elects to suspend services, PBS will give Client seven days' written notice to cure the nonpayment before suspending services. In the event of a suspension of services, PBS shall have no liability to Client because of the suspension and Client shall indemnify, defend, and hold PBS harmless from and against any claims arising out of or in any way related to such suspension. If Client fails to cure a nonpayment after a suspension that lasts thirty (30) days, PBS may terminate this Agreement and recover its fees as provided in this Agreement and by law.
3. **INDEPENDENT CONTRACTOR:** Client has retained PBS, including its subconsultants and subcontractors, to perform the services and to prepare any deliverables described in the SOW as an independent contractor. Accordingly, PBS is not responsible for the following: (a) the health and safety of Client's personnel or other persons present on the Property (as defined in paragraph 8 below) at the time PBS performs its field services; (b) the overall status of Client's project; (c) any damage to any real or personal property of Client unless it results from an intentional or negligent act of PBS; (d) the interpretation of any PBS report, design drawings, or results by others; (e) any use of PBS reports, design drawings, or results by Client or others except as specifically set forth herein; or (f) any other matter not encompassed in the SOW.
4. **LIMITATION OF PBS' LIABILITY:** Client acknowledges and agrees that PBS' maximum liability to Client for any breach of this Agreement or for any PBS act or omission affecting client, including PBS' negligence, shall not exceed \$45,000.00 (Forty-five Thousand Dollars). Under no circumstances shall PBS be liable to Client for any indirect, incidental, special, punitive, or consequential damages, including any loss of use, profit, or revenue.
5. **RATE SCHEDULE:** Fees for services are based on the number of hours spent working on Client's project by PBS personnel, including travel, plus all reimbursable expenses. PBS hourly rates will be billed as stated in the SOW or at its current hourly rates as applicable (current rates are available upon request). Invoices will include sales tax when required.
6. **REIMBURSABLE EXPENSES:**
 - A. **Outside Services.** Services performed by any subconsultants or subcontractors will be invoiced at cost plus 15 percent (15%). Examples of services that may be subcontracted include other professional disciplines, soil boring, well installation, heavy and specialty equipment operators, geophysical surveys, commercial data base search providers, and computer programming.
 - B. **Supplies and Equipment.** Charges for items not ordinarily furnished by PBS such as expendable equipment, rental equipment, subsistence, travel expenses, tolls, special fees, reproduction, permits, licenses, priority mail fees, and deposits will be invoiced at cost plus 10 percent (10%). Certain PBS-owned equipment (for sampling, testing, personal protective equipment, surveying, mapping, vehicle mileage, photocopying, etc.) may be required to complete Client's project. These will be invoiced at PBS standard rates without markup (rates available upon request).
 - C. **Laboratory.** PBS utilizes both in-house and outside laboratories for sample analysis. PBS maintains a list of standard rates for sample analyses commonly utilized in conjunction with PBS services (available upon request).
7. **PAYMENTS TO PBS AND LIEN RIGHTS:** Invoices for services performed will be submitted periodically, but no more frequently than monthly. Invoices will describe the work PBS has performed and hours worked, reimbursable expenses incurred, and the total amount due to PBS in accordance with this Agreement. All invoices are due net thirty (30) days and an account will become delinquent 30 days after the invoice date. Delinquent accounts shall bear interest at the rate of eighteen percent (18%) per annum; provided, however, that if 18% per annum exceeds the maximum rate allowable by law, the maximum rate allowable by law will apply instead. If Client contests an invoice, Client may withhold only that portion contested and must pay the undisputed portion. Client acknowledges and agrees that if PBS may assert a lien against Client's project to secure payment for its services to the extent permitted by law.

8. **RIGHT OF ENTRY:** Unless otherwise agreed in writing, Client will furnish PBS with a legal right-of-entry to any real property PBS is required to access in order to perform its services (the "Property") and that Client will be responsible for securing appropriate conditions concerning the time, place, and manner of PBS' entry upon the Property to perform its services. PBS will take reasonable precautions to minimize damage to the Property in the performance of its services. Restoration of the Property to its approximate condition prior to performance of PBS' services is not provided unless it is expressly included in the SOW. If the Client desires PBS to restore the Property to its approximate former condition, PBS will accomplish this and add the cost plus 15 percent (15%) to its fee.
9. **BURIED UTILITIES:** PBS field personnel are trained in the public utility notification process and the risk of subsurface work encountering buried utilities. PBS personnel will avoid observable hazards or utilities at the Property and will take reasonable precautions to avoid damage to subsurface structures and utilities. PBS is not responsible for damage or loss due to undisclosed or unknown surface or subsurface conditions. Client will hold PBS and PBS subcontractors harmless from any loss resulting from inaccuracy of markings, of plans, or lack of plans, relating to the location of utilities. Note: Utility locates typically require two full working days' advance notice.
10. **RETENTION OF RECORDS AND SAMPLES:** Client may make and retain copies of documents provided to Client for reference with the understanding that such documents may not be relied upon unless signed by PBS or its consultants. PBS has a Records Retention policy (available upon request), and pursuant thereto, client acknowledges that PBS has the right to destroy copies of documents without seeking further approval from Client. Samples retained by PBS and not subject to the recipient laboratory retention policy will be discarded 30 days after submission of PBS' final report unless other arrangements are made.
11. **EMPLOYEE AND SERVICES SOLICITATION:** Client agrees not to solicit or tender any employment offer of/to any PBS employee, or consulting services offer to any PBS subcontractor assigned to perform work for Client under this Agreement within six (6) months of completion of their part of the work without PBS' prior written approval. Client agrees that any breach of this provision resulting in the Client hiring any PBS employee for employment or any PBS subcontractor for consulting services will cause damage to PBS and obligate the Client to reimburse PBS for recruitment and service fees incurred in connection with the breach upon demand by PBS.
12. **OWNERSHIP OF INTELLECTUAL PROPERTY:** All concepts, plans, drawings, specifications, designs, models, reports, photographs, computer software, surveys, calculations, construction and other data, documents, and processes produced by PBS pursuant to this Agreement, including all copyright and other intellectual property therein (collectively, the "Instruments of Service"), are and shall at all times remain PBS' property. Any Client use of any Instruments of Service is permitted only if authorized by a written agreement executed by PBS and Client. Any unauthorized use or distribution of any Instruments of Service is a violation of this Agreement, will cause damage to PBS, and shall be at Client and recipient's sole risk. Accordingly, Client agrees to indemnify, defend, and hold PBS, its officers and employees, and its subconsultants and subcontractors harmless from and against any and all claims, damages, costs, losses, and expenses, including but not limited to attorney fees and costs of arbitrations, mediations, trials, proceedings in bankruptcy, or appeals, arising out of or in any way related to Client's unauthorized use, sale, or delivery to any third party of any Instrument of Service.
13. **TIME FOR COMPLETION:** If, through no fault of PBS, the schedule to provide our services is changed, then the time for completion of PBS's services, and the rates and amounts of PBS' compensation shall be adjusted equitably via contract amendment. PBS shall not be responsible for delays in completing its services that cannot be reasonably foreseen at the time of entering into this agreement, or for delays caused by factors beyond PBS's control.
14. **MISCELLANEOUS:** Neither party shall hold the other responsible for delay in performance caused by Acts of God, strikes, lockouts, weather, accidents, or other events beyond the control of the other or the other's employees and agents.

Any waiver of any provision, term, or condition, in this Agreement must be in writing and any such waiver will not be construed as a waiver of any subsequent breach of the same provision, term, or condition.

PBS may rely upon the accuracy and completeness of all information furnished by Client and may use such information in performing or furnishing services under this Agreement.

An opinion of construction, remediation, and restoration costs prepared by PBS represents its judgment as a professional. PBS has no control over the cost of labor and material, or over competitive bidding or market conditions.

If the SOW includes the investigation, remediation, or disposal of solid or hazardous wastes or substances, then the following terms shall apply:

(a) PBS will assist Client with its legal obligation to make a hazardous waste determination and then act as an arranger with respect to solid and hazardous waste management only. Client acknowledges its full and sole responsibility to otherwise manage its solid and hazardous wastes and its ultimate liability for final disposal of all the solid and hazardous wastes it generates; (b) Should any release of hazardous substances or any other matter requiring notification to governmental authorities arise while PBS performs the services under this Agreement, Client acknowledges its responsibility to make such notification and agrees to do as required by applicable law; and, (c) Client agrees that PBS and its subconsultants and subcontractors are not responsible for any known or unknown pre-existing hazardous substance condition(s) PBS is being asked to investigate at the Property (collectively, "pre-existing conditions"). Accordingly, Client agrees to defend, indemnify, and hold PBS and its subconsultants and subcontractors harmless from liability for injury to person or property or loss arising from any pre-existing conditions, the unintentional exacerbation of any pre-existing conditions by PBS, and the exacerbation of pre-existing conditions by any third parties.

PBS does not provide legal opinions or advice. Client should consult with an attorney for advice on any legal issues related to this Agreement including efforts to minimize legal liability, the reportability of a condition to a public agency, potential cost recovery from responsible parties, and the possibility of protecting PBS' services under the attorney-client and attorney work product privileges.

In the event there is a dispute between PBS and the Client concerning the performance of any provision in this Agreement, the losing party shall pay the prevailing party's reasonable attorney's fees and costs in mediation, arbitration, trial, any proceeding in bankruptcy, and in any appeal or review. In addition, Client agrees to pay PBS for all employee time, costs, and witness costs incurred for collection activity. All disputes between Client and PBS shall be settled by arbitration in accordance with the rules of JAMS Mediators and Arbitrators.

HAZWOPER)

Dennis Terzian has more than 20 years of experience managing site investigation and remedial activities for a variety of clients including municipal and state agencies, brownfields properties, industrial/commercial clients, and non-profit organizations. Through numerous site investigations, he has evaluated and implemented remedial activities at site environmental issues related to historic petroleum releases, chlorinated solvents, and metals. He has prepared budgets, proposals, work plans, and status reports along with feasibility studies, remedial investigation/feasibility studies, quality assurance plans, and site closure requests.

Dennis has managed both short and long-term project for clients with a focus of safety, meeting client timelines, and effectively managing client budgets.

RELEVANT PROJECT EXPERIENCE

S 2nd Street Technical Review on Underground Storage Tank Decommissioning, Coos Grange Supply Co., Coos Bay, Ore. Senior project manager on assessment and regulatory closure of previous reported UST release. Conducted limited historical review of site activities prior to marketing property for sale. Conducted assessment activities to evaluate risk of soil and groundwater contamination identified during prior heating oil UST decommissioning. Achieved regulatory closure for site.

Third-Party Review and Assessment of Commercial Property, Half Moon LLC, Eugene, Oregon. Project manager for site assessment and closure of former lumber mill facility with existing pentachlorophenol impacts to groundwater. Development of remedial options related to prior use of wood preservatives. Negotiated site closure with DEQ and affected neighboring property owner site which allowed management of contaminated media in-place. Evaluated former features including USTs and lumber mill features likely to have contaminated soil and/or groundwater with wood preservatives. Prepared RI/FS, CMMP, and Soil Cap Maintenance Plan.

NW Lower River Road Phase I Environmental Site Assessment, Specht Properties, Inc., Vancouver, Wash. Project manager for site assessment activities related to purchase of property for redevelopment. Site issues included evaluation of fill soil placed at the site, installation of monitoring wells and evaluation of groundwater for site contaminants of interest.

MaClaren Youth Correctional Facility Heating Oil Tank Services, Anderson Environmental Contracting, LLC, Woodburn, Oregon. Project manager who worked with client's contractor to decommission historical heating oil USTs. Acted as licensed tank decommissioning supervisor in performance of site assessment, remedial action (excavation of contaminated soil), and regulatory closure.

Enid Road East Environmental Consulting Services, States Industries, Eugene, Oregon. Designed and implemented site assessment intended to satisfy regulator request to evaluate historical activities for potential releases. Successfully characterized areas of impact, evaluated risk, and obtained regulatory closure of open DEQ file.

Claudia Byes-Lund

Project Scientist/Environmental Professional

Claudia Byes-Lund is a key member of PBS' Portland GeoEnvironmental Group, specializing in Phase I Environmental Site Assessments (ESAs) and costing and scoping of Phase I ESAs. She has extensive historical knowledge of urban office and industrial core areas in the Northwest and is a resource for locating sources of information at city and county agencies. She manages site assessment projects from vacant farmland to urban industrial properties, including Phase I ESAs and Updates. Claudia routinely performs additional site assessment services such as visual asbestos, lead containing paint and mold surveys and limited hazardous materials sampling surveys. She is PBS' primary client contact and project manager for projects associated with TriMet, Avangrid Renewables, Providence Medical Foundation, OHSU Foundation, OSU Foundation, and Tualatin Hills Park and Recreation District, overseeing all aspects associated with trustee's donated properties. Claudia has applied her years of experience in Phase I ESAs and broadened her responsibilities becoming a Phase I trainer and supervisor for new employees.

Application No. _____

Permit No. _____

(1) OWNER: Name Peddleton Woolen Mills Address No. 2 17th St Washougal, WA 98671

(2) LOCATION OF WELL: County Clark — NW 1/4 SW 1/4 Sec. 8 T. 1 N. R. 4E W.M.
Bearing and distance from section or subdivision corner 0.73 mi South NW cor Sect # 8

(3) PROPOSED USE: Domestic Industrial Municipal
Irrigation Test Well Other

(4) TYPE OF WORK: Owner's number of well (if more than one) MW-10
New well Method: Dug Bored
Deepened Cable Driven
Reconditioned Rotary Jetted

(5) DIMENSIONS: Diameter of well 2 inches.
Drilled 35 ft. Depth of completed well 34 ft.

(6) CONSTRUCTION DETAILS:

Casing installed: 2 " Diam. from 0 ft. to 34 ft.
Threaded " Diam. from _____ ft. to _____ ft.
Welded " Diam. from _____ ft. to _____ ft.

Perforations: Yes No
Type of perforator used _____
SIZE of perforations _____ in. by _____ in.
_____ perforations from _____ ft. to _____ ft.
_____ perforations from _____ ft. to _____ ft.
_____ perforations from _____ ft. to _____ ft.

Screens: Yes No
Manufacturer's Name Aardvark
Type PVC Model No. Scr 40
Diam. 2 Slot size #20 from 12 ft. to 32 ft.
Diam. _____ Slot size _____ from _____ ft. to _____ ft.

Gravel packed: Yes No Size of gravel: #8 Filter
Gravel placed from 9 ft. to 34 ft.

Surface seal: Yes No To what depth? 9 ft.
Material used in seal Benctonic Cement Slurry
Did any strata contain unusable water? Yes No
Type of water? _____ Depth of strata _____
Method of sealing strata off _____

(7) PUMP: Manufacturer's Name _____
Type: _____ HP _____

(8) WATER LEVELS: Land-surface elevation _____ ft.
Static level 23.54 ft. below top of well Date 9/11/87
Artesian pressure _____ lbs. per square inch Date _____
Artesian water is controlled by _____ (Cap, valve, etc.)

(9) WELL TESTS: Drawdown is amount water level is lowered below static level
Was a pump test made? Yes No If yes, by whom? _____
Yield: _____ gal./min. with _____ ft. drawdown after _____ hrs.

Recovery data (time taken as zero when pump turned off) (water level measured from well top to water level)

Time	Water Level	Time	Water Level	Time	Water Level

Date of test _____
Baller test _____ gal./min. with _____ ft. drawdown after _____ hrs.
Artesian flow _____ g.p.m. Date _____
Temperature of water _____ Was a chemical analysis made? Yes No

(10) WELL LOG:

Casing installed: 2 " Diam. from 0 ft. to 42.2 ft.
Threaded " Diam. from ... ft. to ... ft.
Welded " Diam. from ... ft. to ... ft.

Perforations: Yes No
Type of perforator used:

Screens: Yes No
Manufacturer's Name: Aardvark
Type: PVC Model No: SCH 40

Gravel packed: Yes No Size of gravel: #8 Filter
Gravel placed from 16.1 ft. to 45 ft.

Surface seal: Yes No To what depth? 16.1 ft.
Material used in seal: portland cement slurry

(7) PUMP: Manufacturer's Name:
Type: H.P.

(8) WATER LEVELS: Land-surface elevation above mean sea level: ft.
Static level 32 ft. below top of well Date: 9/11/87
Artesian pressure lbs. per square inch Date:

(9) WELL TESTS: Drawdown is amount water level is lowered below static level
Was a pump test made? Yes No If yes, by whom?

Recovery data (time taken as zero when pump turned off) (water level measured from well top to water level)

Time	Water Level	Time	Water Level	Time	Water Level

Date of test:
Bailer test: gal./min. with ft. drawdown after hrs.
Artesian flow: g.p.m. Date:
Temperature of water: Was a chemical analysis made? Yes No

(10) WELL LOG:

Formation: Describe by color, character, size of material and structure, and show thickness of aquifers and the kind and nature of the material in each stratum penetrated, with at least one entry for each change of formation.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 07/19/2019 has revealed that there

EXECUTIVE SUMMARY

is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

State- and tribal - equivalent CERCLIS

WA CSCSL: The State Hazardous Waste Sites records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. The data come from the Department of Ecology's Confirmed & Suspected Contaminated Sites List.

A review of the WA CSCSL list, as provided by EDR, and dated 07/16/2019 has revealed that there are 8

WA CSCSL NFA: The data set contains information about sites previously on the Confirmed and Suspected Contaminated Sites list that have received a No Further Action (NFA) determination. Because it is necessary to maintain historical records of sites that have been investigated and cleaned up, sites are not deleted from the database when cleanup activities are completed. Instead a No Further Action code is entered based upon the type of NFA determination the site received.

A review of the WA CSCSL NFA list, as provided by EDR, and dated 07/16/2019 has revealed that there is 1 WA CSCSL NFA site within approximately 0.5 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/24/2019 has revealed that there are 6 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

FUDS: The Listing includes locations of Formerly Used Defense Sites Properties where the US Army Corps Of Engineers is actively working or will take necessary cleanup actions.

A review of the FUDS list, as provided by EDR, and dated 05/15/2019 has revealed that there is 1 FUDS site within approximately 1 mile of the target property.

<u>Site</u>	<u>Address</u>	<u>Dist / Dir</u>	<u>Map ID</u>	<u>Page</u>
WASHOUGAL GAP FIL AN		1/2 - 1 (0.503 mi.) E	44	162

2020 COR ACTION: The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

A review of the 2020 COR ACTION list, as provided by EDR, and dated 09/30/2017 has revealed that there is 1 2020 COR ACTION site within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

<u>Site</u>	<u>Address</u>	<u>Dist / Dir</u>	<u>Map ID</u>	<u>Page</u>
K T KANSO LLC	212 WASHOUGAL RIVER	0 - 1/8 (0.048 mi.) WSW	B9	27

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there is 1 EDR Hist Cleaner site within approximately 0.125 miles of the target property.

FINDS:

Registry ID: 110005383717

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Handler Activities Summary:

U.S. importer of hazardous waste: No
 Mixed waste (haz. and radioactive): No
 Recycler of hazardous waste: No
 Transporter of hazardous waste: No
 Treater, storer or disposer of HW: No
 Underground injection activity: No
 On-site burner exemption: No
 Furnace exemption: No
 Used oil fuel burner: No
 Used oil processor: No
 User oil refiner: No
 Used oil fuel marketer to burner: No
 Used oil Specification marketer: No
 Used oil transfer facility: No
 Used oil transporter: No

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

OSHA ESTABLISHMENT

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

HAZARDOUS WASTE BIENNIAL REPORTER

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

FINDS:

Registry ID: 110005353134

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Hazardous Waste Summary:

- . Waste code: D001
- . Waste name: IGNITABLE WASTE

- . Waste code: D035
- . Waste name: METHYL ETHYL KETONE

- . Waste code: F003
- . Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

- . Waste code: F005
- . Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Summary:

. Waste code: D001
 . Waste name: IGNITABLE WASTE

. Waste code: D009
 . Waste name: MERCURY

. Waste code: D039
 . Waste name: TETRACHLOROETHYLENE

. Waste code: F035
 . Waste name: WASTEWATERS, PROCESS RESIDUALS, PRESERVATIVE DRIPPAGE, AND SPENT FORMULATIONS FROM WOOD PRESERVING PROCESSES GENERATED AT PLANTS THAT USE INORGANIC PRESERVATIVES CONTAINING ARSENIC OR CHROMIUM. THIS LISTING DOES NOT INCLUDE K001 BOTTOM SEDIMENT SLUDGE FROM THE TREATMENT OF WASTEWATER FROM WOOD PRESERVING PROCESSES THAT USE CREOSOTE AND/OR PENTACHLOROPHENOL.

. Waste code: WT02
 . Waste name: Washington State Dangerous Toxic Waste with a toxic constituents concentration greater than or equal to 0.001% and less than 1.0%, determined by biological testing methods or a book designation procedure.

Biennial Reports:

Last Biennial Reporting Year: 2017

Annual Waste Handled:

Waste code: D039
 Waste name: TETRACHLOROETHYLENE
 Amount (Lbs): 268

Waste code: F035
 Waste name: WASTEWATERS, PROCESS RESIDUALS, PRESERVATIVE DRIPPAGE, AND SPENT FORMULATIONS FROM WOOD PRESERVING PROCESS GENERATED AT PLANTS THAT USE INORGANIC PRESERVATIVES CONTAINING ARSENIC OR CHROMIUM. THIS LISTING DOES NOT INCLUDE K001 BOTTOM SEDIMENT SLUDGE FROM THE TREATMENT OF WASTEWATER FROM WOOD PRESERVING PROCESSES THAT USE CREOSOTE AND/OR PENTACHLOROPHENOL (NOTE: THE LISTING OF WASTEWATERS THAT HAVE NOT COME INTO CONTACT WITH PROCESS CONTAMINANTS IS STAYED ADMINISTRATIVELY. THE STAY WILL REMAIN IN EFFECT UNTIL FURTHER ADMINISTRATIVE ACTION IS TAKEN.).

Amount (Lbs): 137993

Waste Stream Comments:	
CORB Waste Sequence Number:	165885
Comments:	A-7-Subpart W drip pad regulations require regular cleaning of drip pad weekly. W-319-Miscellaneous debris mixed with wood treatment chemicals of drip pad cleaning.
Waste Sequence Number:	3498608
Sequence Number:	1
Comments:	A-7-This waste stream is managed by a local service company that supplies solvents for parts washers.
Waste Sequence Number:	3498611
Sequence Number:	1
Comments:	A-7-This waste stream is generated from routine scrubbing of our drip pad which adds water to the surface to prevent tackiness and the premature pulling up of the drip pad coating. This waste stream may or may use treatment by generator standards to evaporate this liquid. A-8-Mostly CCA slurry from cleaning the drip pad.

CORB Waste Sequence Number:	160102
Comments:	A-7-Subpart W drip pad regulations require regular cleaning of drip pad weekly. W-319-Miscellaneous debris mixed with wood treatment chemicals of drip pad cleaning.
Waste Sequence Number:	3425454
Sequence Number:	1
Comments:	A-8 Generally abraided asphalt and other associated materials from maintenance activities to repair drip pad wear surface.
Waste Sequence Number:	3425456
Sequence Number:	1
Comments:	A-7-This waste stream is managed by a local service company that supplies solvents for parts washers.
Waste Sequence Number:	3425457
Sequence Number:	1
Comments:	A-7-This waste stream is generated from routine scrubbing of our drip pad which adds water to the surface to prevent tackiness and the premature pulling up of the drip pad coating. This waste stream may or may use treatment by generator standards to evaporate this liquid. A-8-Mostly CCA slurry from cleaning the drip pad.

Waste Sequence Number:	3367755	
Sequence Number:	1	
Comments:	A-7-This waste stream is generated from routine scrubbing of our drip pad which adds water to the surface to prevent tackiness and the premature pulling up of the drip pad coating. This waste stream may or may use treatment by generator standards to evaporate this liquid. A-8-Mostly CCA slurry from cleaning the drip pad.	
Waste Sequence Number:	3367758	
Sequence Number:	1	
Comments:	A9-Dewaterd CCA tank cleanout. Anticipated that this may no longer be a waste stream.	
Waste Sequence Number:	3367817	
Sequence Number:	1	
Comments:	A-7-Dilute working solution of CCA that had been cross-contaminated and made unusable. Non-recurring waste stream. A-8-Chomated copper arsenate	
Waste Sequence Number:	3367822	
Sequence Number:	1	
Comments:	A-7-Discarded PPE used in the cleanout of CA-C tank cleanouts

Waste Stream Comments:	
CORB Waste Sequence Number:	149297
Comments:	A-7-This was a treatment by generator evaporation process that was discontinued during calendar year 2012/13. These drums were substantially dry enough to meet the profile without evaporation by this generator. B-4-Recycling is not an option for this waste stream.
Waste Sequence Number:	3333838
Sequence Number:	1
Comments:	A-7-Subpart W drip pad regulations require regular cleaning of drip pad weekly. W-319-Miscellaneous debris mixed with wood treatment chemicals of drip pad cleaning.
Waste Sequence Number:	3333839
Sequence Number:	1
Comments:	A-8 Generally abraided asphalt and other associated materials from maintenance activities to repair drip pad wear surface.
Waste Sequence Number:	3333841
Sequence Number:	1

Waste Stream Comments:

CORB Waste Sequence Number: 145357
 Comments: A-7-This was a treatment by generator evaporation process that was discontinued during calendar year 2012/13. These drums were substantially dry enough to meet the profile without evaporation by this generator. B-4-Recycling is not an option for this waste stream.

Waste Sequence Number: 3294116
 Sequence Number: 1

Comments: A-7-Subpart W drip pad regulations require regular cleaning of drip pad weekly. W-319-Miscellaneous debris mixed with wood treatment chemicals of drip pad cleaning. Note that this waste stream was reduced by 395 lbs. because of a drum discrepancy that would later become profile 501422. (see manifest 000483391 for LDR addition.)

Waste Sequence Number: 3294117
 Sequence Number: 1

Comments: A-8 Generally abraided asphalt and other associated materials from maintenance activities to repair drip pad wear surface.

Waste Sequence Number: 3294119
 Sequence Number: 1

Comments: A-7-This waste stream is managed by a local service company that supplies solvents for parts washers.

Waste Sequence Number: 3294121
 Sequence Number: 1

Comments: A-8-This waste stream was cross-contaminated by another chemical and had to be removed.

Waste Sequence Number: 3294138
 Sequence Number: 1

Comments: A-8-This waste stream was cross-contaminated by another chemical and

 Owner/Op start date: 1996-11-14 00:00:00.0
 Owner/Op end date: Not reported

Handler Activities Summary:

U.S. importer of hazardous waste: No
 Mixed waste (haz. and radioactive): No
 Recycler of hazardous waste: No
 Transporter of hazardous waste: No
 Treater, storer or disposer of HW: No
 Underground injection activity: No
 On-site burner exemption: No
 Furnace exemption: No
 Used oil fuel burner: No
 Used oil processor: No
 User oil refiner: No
 Used oil fuel marketer to burner: No
 Used oil Specification marketer: No
 Used oil transfer facility: Yes
 Used oil transporter: No

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of

events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

HAZARDOUS WASTE BIENNIAL REPORTER

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and its Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 07/19/2019	Source: EPA
Date Data Arrived at EDR: 07/30/2019	Telephone: N/A
Date Made Active in Reports: 09/03/2019	Last EDR Contact: 10/02/2019
Number of Days to Update: 35	Next Scheduled EDR Contact: 01/13/2020
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 07/19/2019

Next Scheduled EDR Contact: 01/13/2020
Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 07/19/2019

Data Release Frequency: Quarterly

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 07/19/2019	Source: EPA
Date Data Arrived at EDR: 07/30/2019	Telephone: 800-424-9346

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 06/24/2019	Source: Environmental Protection Agency

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Number of Days to Update: 142	Next Scheduled EDR Contact: 01/06/2020
	Data Release Frequency: Varies

WA PTAP: PTAP Site Listing

A list of sites accepted into the Petroleum Technical Assistance Program. The Petroleum Technical Assistance Program (PTAP) expands the state's ability to respond to the high customer demand to clean up petroleum contaminated sites. Under the PTAP, the Pollution Liability Insurance Agency (PLIA) may provide informal site-specific technical consultations and issue written opinion letters to persons conducting independent remedial actions at qualifying petroleum cleanup sites. PLIA may provide these services under the authority of RCW 70.149.040(9) and the Model Toxics Control Act (MTCA), Chapter 70.149 RCW and Chapter 173-340 WAC.

WA BROWNFIELDS: Brownfields Sites Listing

A listing of brownfields sites included in the Confirmed & Suspected Sites Listing. Brownfields are abandoned, idle or underused commercial or industrial properties, where the expansion or redevelopment is hindered by real or perceived contamination. Brownfields vary in size, location, age, and past use -- they can be anything from a five-hundred acre automobile assembly plant to a small, abandoned corner gas station.

Date of Government Version: 07/16/2019	Source: Department of Ecology
Date Data Arrived at EDR: 07/18/2019	Telephone: 360-725-4030

Number of Days to Update: 71	Next Scheduled EDR Contact: 01/27/2020
	Data Release Frequency: Quarterly

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

TACOMA/PIERCE COUNTY:

WA LF TACOMA/PIERCE: Closed Landfill Survey

Following numerous requests for information about closed dumpsites and landfills in Pierce County, the Tacoma-Pierce County Health Department decided to conduct a study on the matter. The aim of the study was to evaluate public health risks associated with the closed dumpsites and landfills, and to determine the need, if any, for further investigations of a more detailed nature. The sites represent all of the known dumpsites and landfills closed after 1950.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 05/14/2019

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

West Map: 5992265 CAMAS, WA
Version Date: 2013

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General South

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>
53011C0553D	FEMA FIRM Flood data
<u>Additional Panels in search area:</u>	<u>FEMA Source Type</u>
53011C0554D	FEMA FIRM Flood data
53011C0534D	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
WASHOUGAL	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
1	1/8 - 1/4 Mile NW	Not Reported
1G	1/8 - 1/4 Mile NW	Not Reported

For additional site information, refer to Physical Setting Source Map Findings.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Hillsboro

Soil Surface Texture: silt loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	7 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 14 Min: 4	Max: 6 Min: 5.1
2	7 inches	16 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 14 Min: 4	Max: 6 Min: 5.1
3	16 inches	55 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 14 Min: 4	Max: 6 Min: 5.1

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
4	55 inches	59 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 14 Min: 4	Max: 6 Min: 5.1

Soil Map ID: 2

Soil Component Name: Sauvie

Soil Surface Texture: silty clay loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Somewhat poorly drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	14 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 42 Min: 14	Max: 7.3 Min: 6.1
2	14 inches	35 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 42 Min: 14	Max: 7.3 Min: 6.1

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
3	35 inches	59 inches	stratified sandy loam to silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 42 Min: 14	Max: 7.3 Min: 6.1

Soil Map ID: 3

Soil Component Name: Sauvie

Soil Surface Texture: silt loam

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class: Somewhat poorly drained

Hydric Status: All hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 15 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	14 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 42 Min: 14	Max: 7.3 Min: 6.1
2	14 inches	35 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 42 Min: 14	Max: 7.3 Min: 6.1

Soil Map ID: 5

Soil Component Name: Water

Soil Surface Texture: bouldery silt loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class:
Hydric Status: All hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

No Layer Information available.

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Telephone: 360-407-6121

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

Point geodatabase with a record for each Ecology well report. Points are located by quarter quarter section centroid.

Points contain all well report types including water wells, resource protection wells, and decommissioned wells.

OTHER STATE DATABASE INFORMATION

Oil and Gas Well Listing

Source: Department of Natural Resources

Telephone: 360-902-1450

Locations that represent oil and gas test well sites in Washington State from 1890 to present.

RADON

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

Contact: Claudia Byes-Lund

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by PBS Engineering & Env. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

ALTA COMMITMENT FOR TITLE INSURANCE

Issued By agent:

CHICAGO TITLE

COMPANY OF WASHINGTON

Commitment Number:

622-101081

CHICAGO TITLE INSURANCE COMPANY, a Florida corporation ("Company"), for a valuable consideration, commits to issue its policy or policies of title insurance, as identified in Schedule A, in favor of the Proposed Insured named in Schedule A, as owner or mortgagee of the estate or interest in the land described or referred to in Schedule A, upon payment of the premiums and charges and compliance with the Requirements; all subject to the provisions of Schedules A and B and to the Conditions of this Commitment.

This Commitment shall be effective only when the identity of the Proposed Insured and the amount of the policy or policies committed for have been inserted in Schedule A by the Company.

All liability and obligation under this Commitment shall cease and terminate six (6) months after the Effective Date or when the policy or policies committed for shall issue, whichever first occurs, provided that the failure to issue the policy or policies is not the fault of the Company.

The Company will provide a sample of the policy form upon request.

This Commitment shall not be valid or binding until countersigned by a validating officer or authorized signatory.

IN WITNESS WHEREOF, CHICAGO TITLE INSURANCE COMPANY has caused its corporate name and seal to be affixed by its duly authorized officers on the date shown in Schedule A.

Chicago Title Insurance Company

By:

President

Countersigned By:

Authorized Officer or Agent

Attest:

Secretary

SCHEDULE B

Schedule B of the policy or policies to be issued will contain exceptions to the following matters unless the same are disposed of to the satisfaction of the Company:

GENERAL EXCEPTIONS

- A. Rights or claims of parties in possession, or claiming possession, not shown by the Public Records.
- B. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land.
- C. Easements, prescriptive rights, rights-of-way, liens or encumbrances, or claims thereof, not shown by the Public Records.
- D. Any lien, or right to a lien, for contributions to employee benefit funds, or for state workers' compensation, or for services, labor, or material heretofore or hereafter furnished, all as imposed by law, and not shown by the Public Records.
- E. Taxes or special assessments which are not yet payable or which are not shown as existing liens by the Public Records.
- F. Any lien for service, installation, connection, maintenance, tap, capacity, or construction or similar charges for sewer, water, electricity, natural gas or other utilities, or for garbage collection and disposal not shown by the Public Records.
- G. Unpatented mining claims, and all rights relating thereto.
- H. Reservations and exceptions in United States Patents or in Acts authorizing the issuance thereof.
- I. Indian tribal codes or regulations, Indian treaty or aboriginal rights, including easements or equitable servitudes.
- J. Water rights, claims or title to water.
- K. Defects, liens, encumbrances, adverse claims or other matters, if any, created, first appearing in the Public Records, or attaching subsequent to the effective date hereof but prior to the date the proposed Insured acquires of record for value the estate or interest or mortgage thereon covered by this Commitment.

SCHEDULE B
(continued)

SPECIAL EXCEPTIONS

1. Payment of the real estate excise tax, if required.

The Land is situated within the boundaries of local taxing authority of Clark County.

Present rate of real estate excise tax as of the date herein is 1.78 percent.

Any conveyance document must be accompanied by the official Washington State Excise Tax Affidavit. The applicable excise tax must be paid and the affidavit approved at the time of the recording of the conveyance documents. (NOTE: Real Estate Excise Tax Affidavits must be printed as legal size forms).

An additional \$5.00 Electronic Technology Fee must be included in all excise tax payments.

If the transaction is exempt, an additional \$5.00 Affidavit Processing Fee is required.

2. General taxes for the second half of 2018, which becomes delinquent after October 31st if unpaid:

Amount: \$129.94
Tax Account No.: 073660000
School District No.: 112000
Affects: a portion of Lot 3

Note: General taxes for the full year billed at \$260.01.

Prior to close of escrow, please contact the Tax Collector's Office to confirm all amounts owing, including current fiscal year taxes, supplemental taxes, escaped assessments and any delinquencies.

3. General taxes for the second half of 2018, which becomes delinquent after October 31st if unpaid:

Amount: \$194.01
Tax Account No.: 073661000
School District No.: 112000
Affects: a portion of Lot 3

Note: General taxes for the full year billed at \$388.16.

Prior to close of escrow, please contact the Tax Collector's Office to confirm all amounts owing, including current fiscal year taxes, supplemental taxes, escaped assessments and any delinquencies.

8. Assessments, if any, levied by City of Washougal.
9. Please be advised that our search did not disclose any open Deeds of Trust of record. If you should have knowledge of any outstanding obligation, please contact the Title Department immediately for further review prior to closing.
10. Easement(s) for the purpose(s) shown below and rights incidental thereto as set forth in a document:
- In favor of: Public Utility District No. 1 of Clark County, a municipal corporation of the State of Washington
- Purpose: underground electric distribution system, including communication
- Recording Date: May 8, 1973
- Recording No.: G 633372
- Affects: said premises
11. Any unrecorded leaseholds, right of vendors and holders of security interests on personal property installed upon the Land and rights of tenants to remove trade fixtures at the expiration of the terms.
12. The Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance from the entity named below.
- Limited Liability Company: Lone Wolf Development, LLC
- A copy of its operating agreement, if any, and any and all amendments, supplements and/or modifications thereto, certified by the appropriate manager or member.
 - If a domestic Limited Liability Company, a copy of its Articles of Organization and all amendment thereto with the appropriate filing stamps.
 - If the Limited Liability Company is member-managed a full and complete current list of members certified by the appropriate manager or member.
 - A current dated certificate of good standing from the proper governmental authority of the state in which the entity was created
 - If less than all members, or managers, as appropriate, will be executing the closing documents, furnish evidence of the authority of those signing.

The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

SCHEDULE B

(continued)

13. The names of the proposed insured were not furnished in the application for title insurance, and when disclosed, the commitment will be subject to such matters as may be found by a search of the records against said names.

The company reserves the right to add additional items or make further requirements after review of the requested documentation.

END OF EXCEPTIONS**NOTES**

The following matters will not be listed as Special Exceptions in Schedule B of the policy. There will be no coverage for loss arising by reason of the matters listed below because these matters are either excepted or excluded from coverage or are not matters covered under the insuring provisions of the policy.

Note A: Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.

Note B: Your application for title insurance was placed by reference to only a street address or tax identification number. Based on our records, we believe that the legal description in this report covers the parcel(s) of Land that you requested. If the legal description is incorrect, the seller/borrower must notify the Company and/or the settlement company in order to prevent errors and to be certain that the correct parcel(s) of Land will appear on any documents to be recorded in connection with this transaction and on the policy of title insurance.

ASSOCIATION

Printed: 06.26.18 @ 01:27 PM
 WA-CT-FVAN-02150.622484-SPS-1-18-622-101081

CONDITIONS

1. The term mortgage, when used herein, shall include deed of trust, trust deed, or other security instrument.
2. If the proposed Insured has or acquired actual knowledge of any defect, lien, encumbrance, adverse claim or other matter affecting the estate or interest or mortgage thereon covered by this Commitment other than those shown in Schedule B hereof, and shall fail to disclose such knowledge to the Company in writing, the Company shall be relieved from liability for any loss or damage resulting from any act of reliance hereon to the extent the Company is prejudiced by failure to so disclose such knowledge. If the proposed Insured shall disclose such knowledge to the Company, or if the Company otherwise acquires actual knowledge of any such defect, lien, encumbrance, adverse claim or other matter, the Company at its option may amend Schedule B of this Commitment accordingly, but such amendment shall not relieve the Company from liability previously incurred pursuant to paragraph 3 of these Conditions.
3. Liability of the Company under this Commitment shall be only to the named proposed Insured and such parties included under the definition of Insured in the form of policy or policies committed for and only for actual loss incurred in reliance hereon in undertaking in good faith (a) to comply with the requirements hereof, or (b) to eliminate exceptions shown in Schedule B, or (c) to acquire or create the estate or interest or mortgage thereon covered by this Commitment. In no event shall such liability exceed the amount stated in Schedule A for the policy or policies committed for and such liability is subject to the insuring provisions and Conditions and the Exclusions from Coverage of the form of policy or policies committed for in favor of the proposed Insured which are hereby incorporated by reference and are made a part of this Commitment except as expressly modified herein.
4. This Commitment is a contract to issue one or more title insurance policies and is not an abstract of title or a report of the condition of title. Any action or actions or rights of action that the proposed Insured may have or may bring against the Company arising out of the status of the title to the estate or interest or the status of the mortgage thereon covered by this Commitment must be based on and are subject to the provisions of this Commitment.
5. *The policy to be issued contains an arbitration clause. All arbitrable matters when the Amount of Insurance is \$2,000,000 or less shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. You may review a copy of the arbitration rules at <http://www.alta.org>.*

RECORDING REQUIREMENTS

Effective January 1, 1997, document format and content requirements have been imposed by Washington Law. Failure to comply with the following requirements may result in rejection of the document by the county recorder or imposition of a \$50.00 surcharge.

First page or cover sheet:

3" top margin containing nothing except the return address.

1" side and bottom margins containing no markings or seals.

Title(s) of documents.

Recording no. of any assigned, released or referenced document(s).

Grantors names (and page no. where additional names can be found).

Grantees names (and page no. where additional names can be found).

Abbreviated legal description (Lot, Block, Plat Name or Section, Township, Range and Quarter, Quarter Section for unplatted). Said abbreviated legal description is not a substitute for a complete legal description which must also appear in the body of the document.

Assessor's tax parcel number(s).

Return address (in top 3" margin).

**A cover sheet can be attached containing the above format and data if the first page does not contain all required data.

Additional Pages:

1" top, side and bottom margins containing no markings or seals.

All Pages:

No stapled or taped attachments. Each attachment must be a separate page. All notary and other pressure seals must be smudged for visibility. Font size of 8 points or larger.

Inquire before you wire!

WIRE FRAUD ALERT

This Notice is not intended to provide legal or professional advice.
If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the number of relevant parties to the transaction as soon as an escrow account is opened.** DO NOT send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do NOT reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

**FIDELITY NATIONAL FINANCIAL
PRIVACY NOTICE
Revised May 1, 2018**

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF", "our," or "we") respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

Types of Information Collected

We may collect two types of information from you: Personal Information and Browsing Information.

Personal Information. FNF may collect the following categories of Personal Information:

- contact information (e.g., name, address, phone number, email address);
- demographic information (e.g., date of birth, gender, marital status);
- identity information (e.g. Social Security Number, driver's license, passport, or other government ID number);
- financial account information (e.g. loan or bank account information); and
- other personal information necessary to provide products or services to you.

Browsing Information. FNF may automatically collect the following types of Browsing Information when you access an FNF website, online service, or application (each an "FNF Website") from your Internet browser, computer, and/or mobile device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

How Personal Information is Collected

We may collect Personal Information about you from:

- information we receive from you on applications or other forms;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

How Browsing Information is Collected

If you visit or use an FNF Website, Browsing Information may be collected during your visit. Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a "cookie" may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to "Do Not Track" features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to other websites. FNF is not responsible for the privacy practices or the content of any of those other websites. We advise you to read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for three main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you about our, our affiliates', and third parties' products and services, jointly or independently.

When Information Is Disclosed

We may make disclosures of your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;
- to nonaffiliated third party service providers with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Please see "**Choices With Your Information**" to learn the disclosures you can restrict.

Security of Your Information

We maintain physical, electronic, and procedural safeguards to guard your Personal Information. We limit access to nonpublic personal information about you to employees who need to know that information to do their job. When we provide Personal Information to others as discussed in this Privacy Notice, we expect that they process such information in compliance with our Privacy Notice and in compliance with applicable privacy laws.

Choices With Your Information

If you do not want FNF to share your information with our affiliates to directly market to you, you may send an "opt out" request by email, phone, or physical mail as directed at the end of this Privacy Notice. We do not share your Personal Information with nonaffiliates for their use to direct market to you.

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

For California Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law.

For Nevada Residents: You may be placed on our internal Do Not Call List by calling (888) 934-3354 or by contacting us via the information set forth at the end of this Privacy Notice. Nevada law requires that we also provide you with the following contact information: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: BCPINFO@ag.state.nv.us.

For Oregon Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

For Vermont Residents: We will not disclose information about you creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

Information From Children

The FNF Websites are meant for adults and are not intended or designed to attract persons under the age of eighteen (18). We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users

FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence for any of the purposes described in this Privacy Notice. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans

Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except (1) as required or authorized by contract with the mortgage loan servicer or lender, or (2) as required by law or in the good-faith belief that such disclosure is necessary to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The revised Privacy Notice, showing the new revision date, will be posted on the FNF Website. Each time you provide information to us following any amendment of this Privacy Notice, your provision of information to us will signify your assent to and acceptance of the terms of the revised Privacy Notice for all previously collected information and information collected from you in the future. We may use comments, information or feedback that you submit to us in any manner that we may choose without notice or compensation to you.

Accessing and Correcting Information; Contact Us

If you have questions, would like to access or correct your Personal Information, or want to opt-out of information sharing for affiliate marketing, send your requests via email to privacy@fnf.com, by phone to (888) 934-3354, or by mail to:

Questionnaires

Property Owner/Representative Questionnaire

Client/User Questionnaire

PROPERTY OWNER/REPRESENTATIVE QUESTIONNAIRE

PLEASE COMPLETE, SIGN, AND RETURN THE FOLLOWING QUESTIONNAIRE VIA EMAIL TO: samantha.vega@pbsusa.com

The following information will help PBS Engineering and Environmental Inc. (PBS) conduct a more thorough investigation during our Phase I Environmental Site Assessment. Please answer the questions to the best of your ability and return the completed questionnaire at your earliest opportunity.

Where appropriate, please provide copies of citations, permits, maps, and other useful documents. If necessary, please use the space provided on page 4 to further explain "Yes" responses or to include information needed to clarify answers (please reference the question's heading number and associated letter).

1 BASIC PROPERTY INFORMATION

- a. Property address: 1625 Main Street Washougal, Washington
b. Name of person completing this questionnaire Wes Hickey
c. Current property owner name Lone Wolf Development, LLC
d. How long have you owned the property? 2004
e. If you are not the property owner, please provide the legal property owner's name and contact information, and describe your relationship to the property:
f. Please provide the previous property owner's name and/or LLC and contact information, if available: Green Arbor Development
g. Please describe known historical uses of the property, including dates or years: Parking for adjoining office

Table with 4 columns: Electricity, Sewer, Stormwater, Water well on-site? and 4 rows: Heating, Garbage, Other, No

2 ENVIRONMENTAL INFORMATION

Has the property or any adjoining properties, presently or in the past, been associated with the following uses or features? Please check the appropriate column, and provide explanatory information under "Notes."

Uses/Features	Your Property	Adjoining Properties
a. Above-ground storage tanks		
b. Automobile repairs or maintenance		
c. Auto wrecking, scrap yard, or junk yard		
d. Commercial printing		
e. Dry-cleaning		
f. Fill dirt placement		
g. Floor drains (interior) or catch basins (exterior) emitting foul odors		
h. Fueling		
i. Industrial use/manufacturing (please describe under "Notes," below)		
j. Landfill		
k. Lumber mill		
l. Orchard or other agricultural use		
m. PCB-containing equipment		
n. Photo-developing		
o. Sand blasting		
p. Stained soils (other than from engine oil drips)		
q. Under-ground storage tanks		
r. Vent pipes or fill pipes		
s. Storage, burial or disposal of any of the following:		
Municipal waste		
Petroleum products		
Drums		
Tires		
Automotive or industrial batteries		
Pesticides		
Paints		
Hazardous materials (e.g., lead paint, asbestos)		
Hazardous chemicals (e.g., solvents, thinners, strippers)		
<p>Notes: Section 2 (please list question letter).</p>		

3 PROPERTY CONDITIONS

Are you aware of any of the following conditions associated with your property? Please answer "yes" or "no" in the appropriate column and provide explanatory information under "Notes."

Uses/Features	Your Property
a. Are there any environmental liens or property-use limitations such as deed restrictions?	No
b. Has the property's purchase price been devalued due to environmental conditions?	No
c. Have there been any past or recurrent violations of environmental laws with respect to the property or any facility located on the property, resulting in governmental notification?	No
d. Have there been environmental assessments completed previously?	Yes
e. Are there any pending, threatened or past lawsuits or administrative proceedings concerning a release or threatened release of any hazardous substances or petroleum products on the property?	No
<p>Notes. Section 3 (please list question letter.) <i>Phase I assessment completed by PBS September 2004.</i></p>	

4 PREVIOUS STUDIES AND OTHER DOCUMENTS

Are you aware of previous environmental studies or other documents associated with the property? Please check the column next to any applicable study or document, and provide explanatory information under "Notes."

Previous Studies and Other Documents	Your Property
a. Environmental permits (e.g., solid waste disposal, hazardous waste generation, wastewater disposal permits, stormwater permits)	
a. Geotechnical studies	✓
b. Hazardous waste generator reports	
c. Hydrogeologic reports	
d. Notices or correspondence from governmental agencies (past or current violations of environmental laws)	
e. Prior asbestos survey or abatement reports	
f. Prior environmental site assessment	✓
g. Safety plans, preparedness and prevention plans, spill prevention plans	
h. State or federal registrations for above-ground or under-ground storage tanks	
<p>Notes. Section 4 (please list question letter).</p>	

5 ADDITIONAL INFORMATION

Please provide any additional information regarding your property that might be relevant to our study, below:

Environmental assessment was completed by PBS for adjacent office building prior to demolition. Report dated December 2013 is attached.

The undersigned represents that the information given in this questionnaire is accurate and complete to the best of his or her knowledge.

This form is the **User Questionnaire**, as defined and required by ASTM E1527-13. The **User** is the party seeking to rely on the Phase I Environmental Site Assessment (**Fort Vancouver Regional Libraries**). The User's responses to these questions are an important element to meeting the all appropriate inquiry rule.

****It is acceptable to write "Do not know"*****

PROPERTY ADDRESS: Lots 3 through 6, West Side of Block 8
North of Main Street and East of Durgan Street, Washougal, WA

FORM COMPLETED BY: Amelia Shelley

RELATIONSHIP TO PROPERTY: Representative of FURL

QUESTIONNAIRE

Please complete this information to the best of your knowledge.

1. Are you aware of any environmental cleanup liens against the property that are filed under federal, tribal, state, or local law? Yes No (If yes, summarize below.)

2. Are you aware of any activity and land use limitations (AULs), such as engineering controls, land use restrictions, or institutional controls in place at the site and/or filed or recorded in a registry under federal, tribal, state, or local law? Yes No (If yes, summarize below.)

3. As the User of this environmental site assessment, do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property, or an adjoining property, so you would have specialized knowledge of the chemicals and processes used by that type of business?

No

4. Does the purchase price being paid for this property reasonably reflect the fair market value of the property? Yes No

If you conclude that there is a difference from fair market value, is the lower price because contamination is known or believed to be present at the property?

The property is the subject of a donation to FURL by Lone Wolf Investments, Inc. and Wes Hickey & Diane Hickey.

Client/User Questionnaire

5. Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional (EP) identify conditions indicative of releases or threatened releases?

For example:

Do you know the past uses of the property?

I believe there was a bank on the property that was torn down ~ 2 yrs ago

Do you know of specific chemicals that are present or once present at the property?

No

Do you know of any spills or other chemical releases that have taken place at the property?

No

Do you know of any environmental cleanups that have taken place at the property?

No

Any other environmentally significant information?

No

6. Based on your knowledge and experience related to the property, are there any obvious indicators that point to the presence or likely presence of contamination at the property?

No
