## There are 5 simple ways

we can help children get ready to read. Before children can learn to read, they need a range of early literacy skills. Add them to your routine. These activities can begin at birth.

**READ** a little every day.

**WRITE**, scribble, and draw.

**PLAY** together. Playing is how children learn and share ideas.

**TALK** to your children; it helps them learn words and their meaning.

**SING**, chant, and rhyme together to teach rhythm and vocabulary.
