

## Addendum #1

### Project: Vancouver Community Library Deck Replacement and Structural Upgrade (ITB #2026-001)

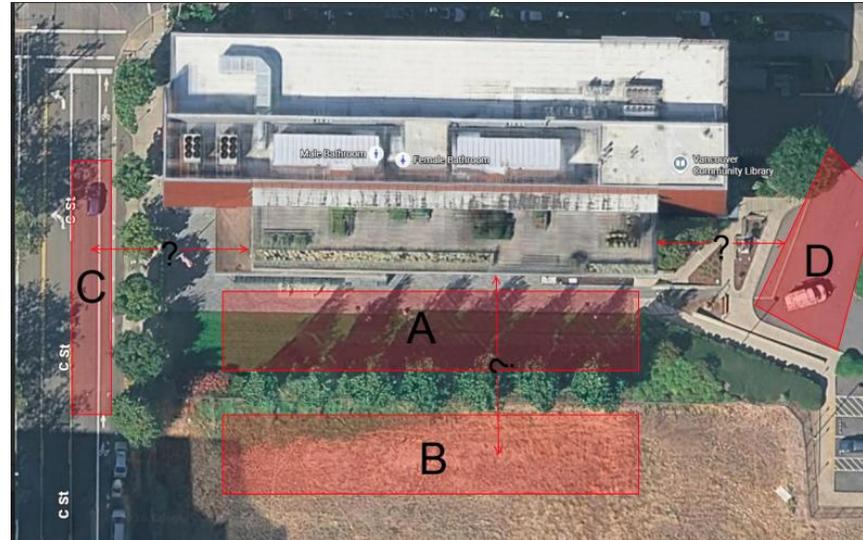

Date: March 27, 2026

This addendum is issued to clarify the Invitation to Bid (ITB #2026-001) by addressing the only question received during the solicitation period.

**Bidders shall acknowledge receipt and review of all Addenda issued during the Bid period in the space provided in Section 5 Bid Form. Failure to acknowledge any/all addenda may be cause for Bid rejection.**

#### Question 1 (as submitted):

For the purpose of coordinating the removal of demolished materials, and the stocking of new deck structure and decking materials, see attached markup of possible access points. During the pre-bid meeting I remembered hearing something about the city allowing access, was that for area A or B? Also, can we get an elevation to the deck from ground level, along with estimated distances from each possible access point to the deck?

**Answer 1:**

Please see the attached aerial view showing the space available for laydown area and loading/unloading. The deck elevation is approximately 52 feet (refer to elevation drawings).

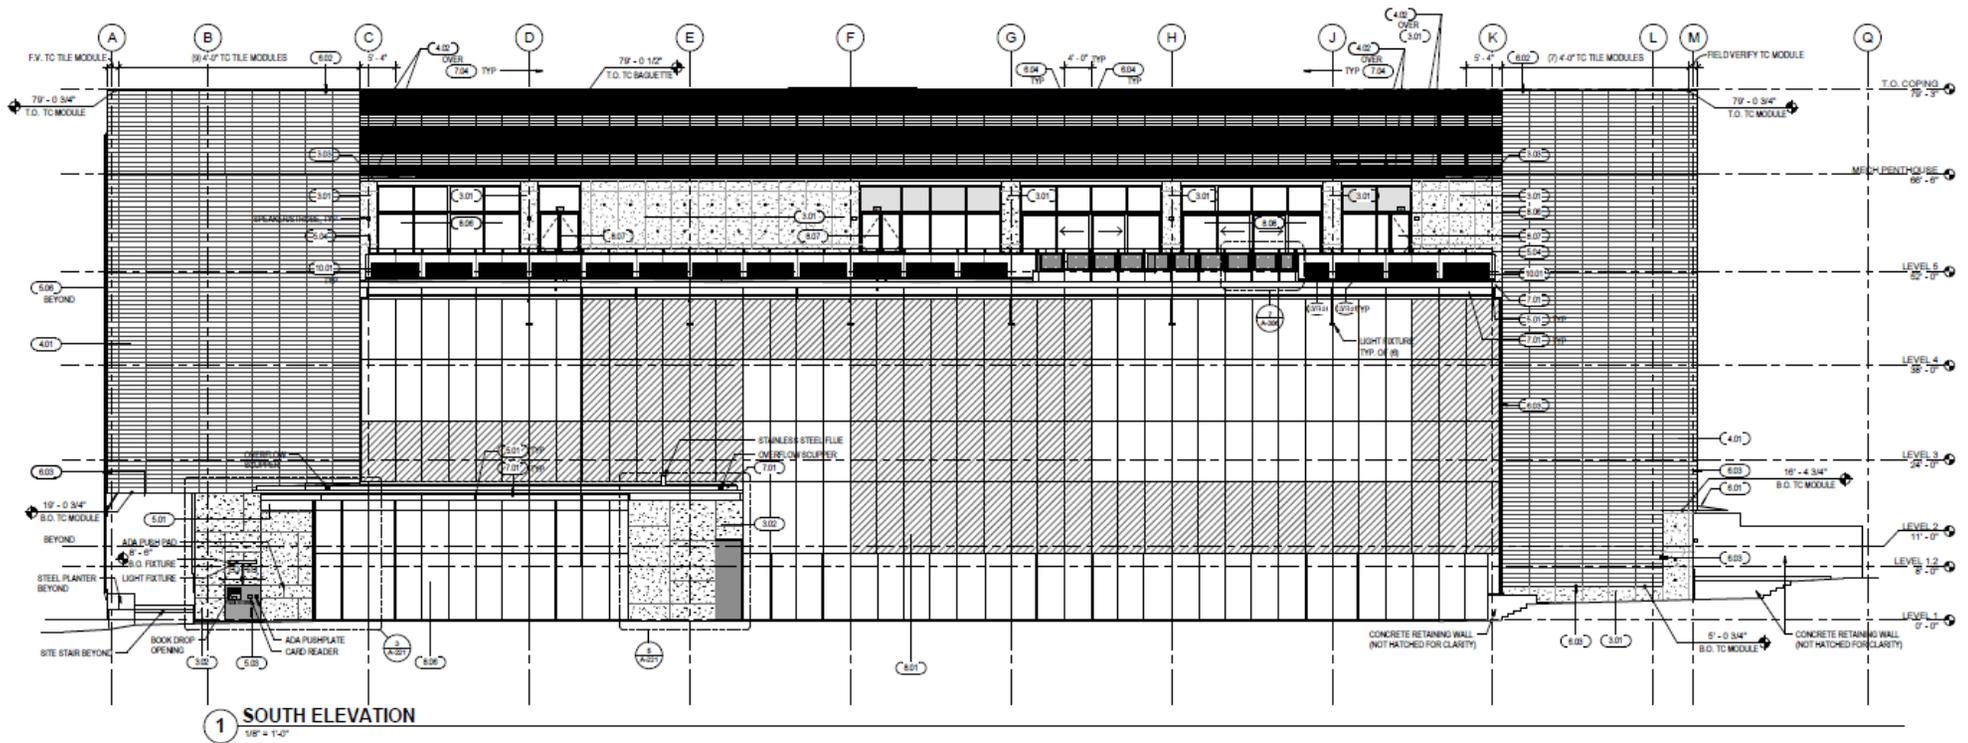

We do not have estimated distances from various ground-level access points to the deck. Contractors are responsible for field verification of all dimensions. The library is a public facility. Contractors may visit the site to take measurements. Please check in at the front desk upon arrival.

### Elevation Drawings

Please note, the due date for this Bid **has not** been extended.

**All other Terms and conditions of this Bid remain the same.**

**This Addendum is hereby made a part of the Contract Documents.**
